### **An Empire Wilderness Traveling Into America S Future Vintage Departures:**

*An Empire Wilderness* Robert D. Kaplan, 2014-11-12 Having reported on some of the world's most violent least understood regions in his bestsellers *Balkan Ghosts* and *The Ends of the Earth* Robert Kaplan now returns to his native land the United States of America Traveling like Tocqueville and John Gunther before him through a political and cultural landscape in transition Kaplan reveals a nation shedding a familiar identity as it assumes a radically new one *An Empire Wilderness* opens in Fort Leavenworth Kansas where the first white settlers moved into Indian country and where Manifest Destiny was born In a world whose future conflicts can barely be imagined it is also the place where the army trains its men to fight the next war A nostalgic view of the United States is deliberately cultivated here Kaplan writes as if to bind the uncertain future to a reliable past From Fort Leavenworth Kaplan travels west to the great cities of the heartland to St Louis once a glorious shipping center expected to outshine imperial Rome and now touted with its desolate inner city and miles of suburban gated communities as the most average American city Kaplan continues west to Omaha down through California north from Mexico across Arizona New Mexico and Texas up to Montana and Canada and back through Oregon He visits Mexican border settlements and dust blown county sheriffs offices Indian reservations and nuclear bomb plants cattle ranches in the Oklahoma Panhandle glacier mantled forests in the Pacific Northwest swanky postsuburban sprawls and grim bus terminals and comes at last to the great battlefield at Vicksburg Mississippi where an earlier generation of Americans gave their lives for their vision of an American future But what if anything he asks will today's Americans fight and die for At Vicksburg Kaplan contemplates the new America through which he has just traveled an America of sharply polarized communities that draws its population from pools of talent far beyond its borders an America where the distance between winners and losers grows exponentially as corporations assume government functions and the wealthy find themselves more closely linked to their business associates in India and China than to their poorer neighbors a few miles away an America where old loyalties and allegiances are vanishing and new ones are only beginning to emerge The new America he found is in the pages of this book Kaplan gives a precise and chilling vision of how the most successful nation the world has ever known is entering the final and highly uncertain phase of its history *European Media in Crisis* Josef Trappel, Jeanette

Steemers, Barbara Thomass, 2015-06-12 When the financial markets collapsed in 2008 the media industry was affected by a major slump in advertising revenues and a formerly highly successful business model fell into a state of decay This economic crisis has threatened core social values of contemporary democracies such as freedom diversity and equality Taking a normative and policy perspective this book discusses threats and opportunities for the media industry in Europe What are the implications of the crisis for professional journalism the media industry and the process of political communication Can non state and non market actors profit from the crisis And what are media policy answers at the national and European level

*An Empire Wilderness* Robert D. Kaplan, 1999-09-07 Full of surprises and unusual revelations an informed and disturbing portrait of the new American badlands Chicago Tribune Kaplan is tireless curious and smart I cannot imagine anyone will concoct a more convincing scenario for the American future Thurston Clarke The New York Times With the same prescience and eye for telling detail that distinguished his bestselling *Balkan Ghosts* Robert Kaplan now explores his native country the United States of America His starting point the conviction that America is a country not in decline but in transition slowly but inexorably shedding its identity as a monolithic nation state and assuming a radically new one Everywhere Kaplan travels from St Louis Missouri to Portland Oregon from the forty ninth parallel to the banks of the Rio Grande he finds an America ever more fragmented along lines of race class education and geography An America whose wealthy communities become wealthier and more fortress like as they become more closely linked to the world's business capitals than to the desolate ghettos next door An America where the political boundaries between the states and between the U S and Canada and Mexico are becoming increasingly blurred betokening a vast open zone for trade commerce and cultural interaction the nexus of tomorrow's transnational world Never nostalgic or falsely optimistic bracingly unafraid of change and its consequences Kaplan paints a startling portrait of post Cold War America a great nation entering the final most uncertain phase of its history Here is travel writing with the force of prophecy Lively Kaplan has a sharp eye for social truth and his encounters with a chorus of eloquent citizens of the West keeps the narrative humming
