Cotman, James L McGaugh, 2014-04-24 Behavioral Neuroscience An Introduction provides a basic understanding of what is known about the means by which neurons communicate and about the nervous system which interprets integrates and transmits signals into meaningful and appropriate behaviors The book starts with an overview of the nervous system The text then describes the general operation and organization of the nervous system and some of the major types of neurons in the context of their systems The basic characteristics of neurons and how they communicate the processes and the basic integrative properties of defined groups of neurons and complex learning and memory are also considered The book further tackles the auditory somesthetic olfactory gustatory visual and motor systems the functions of the autonomic nervous system and the neuroendocrine system and the neural basis of two types of motivated behavior drinking and feeding The text also encompasses sleep and activity rhythms the development of the neural circuitry and its plasticity throughout life and the development of behavior Behavioral disorders and the aspects of the human nervous system which make man unique among all living creatures are also looked into Behavioral psychologists behavioral neuroscientists and psychobiologists will find the book invaluable

The Book of Politics Michael Dutton, 2024-07-05 In The Book of Politics Michael Dutton offers an affective theorization of the political and a political theorization of affect Drawing on Western and Chinese social theory and practice Dutton rethinks Carl Schmitt's insistence that the political can be thought of only within the antagonistic pairing of friend and enemy Dutton shows how the power of the friend enemy binary must be understood by conceptualizing the political as the channeling harnessing and transforming of affective energy flows in relation to that binary Given this affective nature of politics Dutton contends that to rethink the political means moving away from a political science toward an art of the political Such an art highlights fluidity and pulls away from Eurocentric political theory requiring a conceptualization of the political as global He juxtaposes ancient Chinese cosmology medicine and Maoism against the monuments of early capitalist modernity such as the Crystal Palace and the Eiffel Tower to highlight the

differences in political investments and intensities From the Chinese revolution to the global rise of right wing movements
Dutton rethinks politics in the contemporary world

Reviewing **An Introduction To Ear Acupuncture**: Unlocking the Spellbinding Force of Linguistics
