Grace Paley Jacqueline Taylor,2014-02-19 Grace Paley is a writer s writer admired by both scholars and the reading public for her originality and unique voice In this first book length study of her work Jacqueline Taylor explores the source of Paley s originality locating it in the way Paley transforms language to create strongly woman centered stories Drawing on interviews with the author as well as the stories themselves Taylor emphasizes Paley s awareness that women s voices have been muted and their stories ignored or left untold in our culture s male oriented dominant discourse She watches Paley in the process of reshaping language at both the semantic and narrative levels to make it express women s perceptions and experiences In Paley s stories it becomes possible to ignore traditional heroic and dramatic themes and instead talk about women and children in such everyday settings as the playground the kitchen and the grocery store Some of the specific techniques Paley uses to accomplish this include identifying and repudiating sexist language in the dominant discourse and redefining ordinary words from the perspective of women At the narrative level Taylor reveals how she draws on women s oral traditions to tell open ended stories that resist rigid beginning middle and end structuring This transformed language enables Paley to construct a social world where woman centered meanings can flourish In her nontraditional stories no single narrator or version of events dominates Anyone can be a storyteller and no one has the last word Handbook of the

American Short Story Erik Redling,Oliver Scheiding,2022-01-19 The American short story has always been characterized by exciting aesthetic innovations and an immense range of topics This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media Part I provides systematic overviews of significant contexts ranging from historical political backgrounds short story theories developed by writers print and digital culture to current theoretical approaches and canon formation Part II consists of 35 paired readings of representative short stories by eminent authors charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age The handbook examines historically methodologically and theoretically the coming together of the enduring narrative practice of compression and concision in American literature It offers fresh and original readings relevant to studying the American short story and shows how the genre performs American culture **Conversations with Grace Paley** Grace Paley,1997

communicative action to read the work of Frank O'Hara, James Baldwin, Grace Paley and Andy Warhol. In *Defense of Dialogue* assembles postwar writers who have never been studied alongside one another showing how they overcame the pervading skepticism of their contemporaries to imagine sincere and rational speakers who seek to cultivate intersubjective discourse.

Grace Paley's Life Stories Judith Arcana, 1993. Is at the core of Judith Arcana's biographical reading of this strongly autobiographical writer. Grace Paley's *Life Stories* interweaves details about Paley with critical discussions of her works examining her as a woman, mother, activist, and Jew. Arcana visited and interviewed Paley at her homes in Vermont and New York over a period of several years. She also interviewed Paley's family friends and colleagues. Such extensive research is unmatched in Paley scholarship.

Let the Crazy Child Write! Clive Matson, 2011-02-08. Twelve lively in-depth chapters reveal how following our untrained impulses, our creative unconscious, or Crazy Child gives an authentic grasp on writing stories, poems, plays, and essays. *Let the Crazy Child Write!* introduces exercises that explicitly tap this knowledge and also presents guidelines on how to give and receive constructive feedback. This is the first how-to write text to give full credit to the creative unconscious since *Becoming a Writer*, the 1934 classic by Dorothea Brande. Matson goes further by developing writing techniques: step-by-step, Image Detail, Slow Motion, Hook, Persona, Writing Point of View, Dialogue, Plot, Narrative Presence, Good Cliché's, Character, Surrealism, and Resolution.

essays on major writers and themes by some of the best literary critics in the United States Part 1 is comprised of articles on stories that share a particular theme such as Working Class Stories or Gay and Lesbian Stories The heart of the book however lies in Part 2 which contains more than one hundred pieces on individual writers and their work including Fitzgerald Hemingway Richard Ford Raymond Carver Eudora Welty Andre Debus Zora Neal Hurston Anne Beattie Bharati Mukherjee J D Salinger and Jamaica Kincaid as well as engaging pieces on the promising new writers to come on the scene *Teaching Literature and Medicine* Anne Hunsaker Hawkins, Marilyn Chandler McEntyre, 2016-01-01 Both the actualities and the metaphorical possibilities of illness and medicine abound in literature from the presence of tuberculosis in Franz Kafka's fiction or childbed fever in Mary Shelley's *Frankenstein* to disease in Thomas Mann's *Death in Venice* or in Harold Pinter's *A Kind of Alaska* from the stories of Anton Chekhov and of William Carlos Williams both doctors to the poetry of nurses derived from their contrasting experiences These are just a few examples of the cross pollination between literature and medicine It is no surprise then that courses in literature and medicine flourish in undergraduate curricula medical schools and continuing education programs throughout the United States and Canada This volume in the MLA series *Options for Teaching* presents a variety of approaches to the subject It is intended both for literary scholars and for physicians who teach literature and medicine or who are interested in enriching their courses in either discipline by introducing interdisciplinary dimensions The thirty four essays in *Teaching Literature and Medicine* describe model courses deal with specific texts authors and genres list readings widely taught in literature and medicine courses discuss the value of texts in both medical education and the practice of medicine and provide bibliographic resources including works in the history of medicine from classical antiquity *The Book of Positive Quotations* Steve Deger, Leslie Ann Gibson, 2024-09-03 With more than 10 000 entries on 62 subjects *The Book of Positive Quotations* is an invaluable tool for writers public speakers coaches business leaders anyone who needs to communicate a positive message to an audience It is conveniently organized by subject and thoroughly indexed for ease of use Includes a new Preface by contributor Leslie Ann Gibson Every now and then each of us can use some words of inspiration messages that motivate John Cook happily provides them in this book Gannett News Service *Contemporary American Women Writers* Catherine Rainwater, William J. Scheick, 2014-10-17 Ann Beattie Annie Dillard Maxine Hong Kingston Toni Morrison Cynthia Ozick Grace Paley Marge Piercy Anne Redmon Anne Tyler and Alice Walker all seem to be especially concerned with narrative management The ten essays in this book raise new and intriguing questions about the ways these leading women writers appropriate and transform generic norms and ultimately revise literary tradition to make it more inclusive of female experience vision and expression The contributors to this volume discover diverse narrative strategies Beattie Dillard Paley and Redmon in divergent ways rely heavily upon narrative gaps surfaces and silences often suggesting depths which are lamentably absent from modern experience or which mysteriously elude language For Kingston and Walker verbal assertiveness is the focus of narratives depicting the gradual empowerment

of female protagonists who learn to speak themselves into existence Ozick and Tyler disrupt conventional reader expectations of the anti novel and the family novel respectively Finally Morrison s and Piercy s works reveal how traditional narrative forms such as the Bildungsroman and the soap opera are adaptable to feminist purposes In examining the writings of these ten important women authors this book illuminates a significant moment in literary history when women s voices are profoundly reshaping American literary tradition
