Getting to the Core of Literacy for History/Social Studies, Science, and Technical Subjects, Grades 6–12 Vicky Giouroukakis, Maureen Connolly, 2013-05-14 Literacy is not just for English teachers anymore. The new Common Core English Language Arts Standards aren't just for English teachers. Fluent reading and writing are critically important to the study of history, social studies, science, and technical subjects too. What's more, the progress your students make is directly tied to their ability to process information they read and to express their ideas in writing. So how do you make literacy a focus of your teaching without taking time away from essential content? This practical resource, packed with teacher-tested CCSS-based sample lessons, shows you how using the Backward Design approach to set and meet your goals. Each lesson template includes the teaching strategies you'll utilize, ways to incorporate technology and media, variations for differentiation and interdisciplinary connections, links to the work of major educational theorists. Following these models, you'll set the CCSS in your sights and develop lessons that both meet standards and fit your classroom. Before you know it, you'll be infusing reading and writing across your curriculum in purposeful and meaningful ways.

The Mathematics Lesson-Planning Handbook, Grades 6-8 Lois A. Williams, Beth McCord Kobett, Ruth Harbin Miles, 2018-12-28 Your blueprint to planning Grades 6-8 math lessons that lead to achievement for all learners. When it comes to planning mathematics lessons, do you sometimes feel burdened? Have you ever scrambled for an activity to engage your students that aligns with your state standards? Do you ever look at a recommended mathematics lesson plan and think, "This will never work for my students"? The *Mathematics Lesson Planning Handbook: Your Blueprint for Building Cohesive Lessons, Grades 6-8* walks you step by step through the process of planning focused, research-based mathematics lessons that enhance the coherence, rigor, and purpose of state standards and address the unique learning needs of your individual students. This resource deepens the daily lesson planning process for middle school teachers and offers practical guidance for merging routines, resources, and effective teaching techniques into an individualized and manageable set of lesson plans. The effective planning process helps you identify learning intentions and connect goals to success criteria. Select resources and worthwhile tasks that make the best use of instructional materials. Structure lessons differently for traditional and block middle school schedules. Anticipate student misconceptions and evaluate understanding using a variety of formative assessment techniques. Facilitate questioning, encourage productive struggle, and close lessons with reflection techniques. This author team of seasoned mathematics educators make lesson planning practical and doable with a useful lesson planning template and real-life examples from Grades 6-8 classrooms. Chapter by chapter, the decision-making strategies empower teachers to plan mathematics lessons strategically to teach with intention and confidence and to build purposeful, rigorous, coherent lessons that lead to mathematics achievement for all learners.
