Field Guide

Descriptions:

Displaying a powerful body covered with short white hair, this creature seems to enjoy the presence of beautiful flowers and other decorations. The armadillo-like attachment makes one think that this creature might be intelligent, but no details are known. Usually prone to peaceful behavior, this creature will go mad when attacked and retaliate with scissorlike chopping motions of its powerful arms that bury any opponent in the ground.

If you visit the Impact Site on an even-numbered day (between Days 8 and 30), you'll encounter the mamuta on the big tree stump. If the mamuta attacks your Pikmin, it won't harm them—it will merely pound them into the ground, and your replanted Pikmin will instantly bloom into flowers.

Descriptions:

To lure then trap creatures that are attracted to small shiny objects, the ploister turns undigested foodstuffs into round beads with the same secretion that makes up its shell. The pearl-like substance has a layering that is thinner and weaker than a real pearl, reducing it in value.

Shortly after you toss Pikmin into a pearly clamclamp, its shell will snap shut. Don't let the clam gobble up your Pikmin by ordering them in and out of the shell before it has a chance to clam up. If your Pikmin can smack the clamclamp's pearl free from the shell, they can cash it in at an onion to earn 50 seeds.
