Barnett, Laura S. Gordon, Margaret A. Hendrix, 2001-01-01 The Big Book of Presbyterian Stewardship deals in a practical clear easy to understand manner with the full extent of financial issues that face a church With a comprehensive scope this book offers a fresh perspective and fun ideas for people who may not have any financial background or experience Most chapters feature questions for discussion that make The Big Book of Presbyterian Stewardship useful for study by stewardship committees or as a planning guide for stewardship campaigns The final section includes a helpful collection of inventories charts sample plans and other practical resources      **International Journal of Religious Education** , 1954      **100 Ways to Increase Church Attendance** Albert O. Aina, 2018-05-13 God called me in September 1994 It was during my quiet time before going out for my consulting practice I was then the Chief Executive Officer Managing Consultant of Alaryn Management Centre Ltd I was deeply involved in boosting sales training and equipping managers and officers of various companies who retained us as their Management

Training consultant By the grace of God several small and big companies grew and benefitted from our consulting services I heard God clearly telling me on that fateful morning thus The same things you are giving to the business world package it give it to my church beginning with the Bible I have been doing just that since 1994 as CEO Christian Leadership Skills Inc The divine call is one of the reasons why I wrote this book I have been involved in Christian leadership since 1982 But I started pastoring in 1995 as Senior Pastor It has been my motivation desire and passion to see God s work grow and progress Most of the principles in this book if not all have been practiced with results in our ministry When I was privileged to become the President of AGAPE Conference in 1987 only one or two churches attended By 2003 203 churches from 85 denominations became regular participants In other words I am a fellow student with you dear precious reader in this same school of church growth This is the second reason why I wrote this book My wife Lara is a Mathematician She has been teaching Mathematics since 1989 Naturally she likes computation and percentages We came back from a Pastors meeting one evening Lara analyzed the various reports submitted by about 187 churches Her statistical conclusion got my attention She found out that only two churches of the lot were above 1 000 in attendance Only one church was 500 in attendance ten churches averaged 300 worshippers About twenty four churches were above 100 One hundred and fifty churches were below 100 in attendance Though our church was above 1 000 at that time we received a burden a mandate to seek for what factors make for church growth When we searched further we discovered that 87% of churches in Nigeria were below 200 in attendance This is the third reason why I wrote this book It is to report our findings on what make churches grow I have also discovered that success in ministry is more than numbers What makes for success in the eyes of God the LORD of the harvest is not the same indices used by men to bench mark success There are habits found with successful pastors In fact by and large success in ministry is an inside job No work can grow faster on the outside than the man behind the work is growing on the inside This is my fourth reason for writing this book The challenge of growth is enormous in the gospel ministry in Nigeria and Africa The problem and challenges we face are not the same as those faced in other lands and under different climes The few books we are reading on Church Growth are written by foreign authors far removed from our context Many are not relevant to Africa Except from the writings of Dr Francis Akin John Bishop David Oyedepo Pastor Mathew Ashimolowo and very few others there are not many books and literature on what makes churches and ministries to grow in our contemporary African setting If this gap is filled a little by this book then the fifth reason for its writing is justified We need to continually elevate our thoughts in search of solutions to problems that confront us today We can not solve our current problems with the level of thinking of yesteryears This book is a little effort to advance the frontiers of knowledge on the subject of church growth This is the seventh reason why it took me about 25 years of christian leadership experience over a decade in pastoring small and growing large churches and 100 0000 hours to put down 100 ways to increase church attendance
