

Conditional Statements Worksheet 2

Write each sentence as a conditional.

1. A regular hexagon has exactly six congruent sides. *If a hexagon is regular, then it has exactly six congruent sides.*
2. Two supplementary angles form a line. *If two angles are supplementary, then the angles form a line.*

Determine the truth value of each conditional. Explain your reasoning or give a counterexample.

3. If a figure has four congruent angles, then the figure is a square. *Given: If a figure is a square, then it is a rectangle. Conclusion: Figure A is not a rectangle. Figure A is not a square.*
4. If the sidewalks are wet, then it has been raining.

Write the negation of each part of the conditional. Then write the converse, the inverse, and the contrapositive. Determine the truth value of each new statement.

5. If a figure is a square, then it is a rectangle.
6. If the game is field hockey, then the game is a team sport.

7. Write a biconditional for the following conditional. Determine the truth value of the new statement. *If two lines have the same slope, then they are parallel.*

8. Understand Write the Distributive Property of Multiplication Over Addition as a conditional statement. *$3(10 + 2) = 3(12) = 36$*

9. Apply The number of people in the United States who are at least 100 years old grew about 66% from 1980 to 2010. Write that information as a conditional statement.

Patterns of Repetition, Structure, and Meaning in the Book of Hebrews Michael C. Clark, 2024-04-01. While many have recognized unusual patterns of repetition within the book of Hebrews which seem to play a range of important functions within the text, the consistency of this patterning has not been fully appreciated, and its function has been largely unexamined. This study investigates the location and function of what we have termed link clusters within Hebrews from the perspective of discourse analysis to gain fresh insight into the language structure and genre of Hebrews, into the book's relationship to the Old Testament, and into the book's authorship and meaning. This work proposes first that Hebrews uses repetition to establish formal connections between words and phrases marked as significant by their location and context with respect to other similarly connected words and phrases; second, that link clusters serve to structure the book of Hebrews by uniting the text into a series of overlapping concentric and coherent units; and third, that link clusters also serve an important topical function, clarifying and amplifying intended meaning as pairs of matching topic sentences that respectively introduce and conclude each section and subsection of the discourse by summarizing its content.
