of well established leaders in the discipline and new voices in legal philosophy The magnitude of the resulting project is extraordinary presenting a diverse array of innovative and creative philosophical investigations of the practice of adhering to past decisions in law and allied fields of practical reasoning And by the same token the contributions elucidate the reasons that courts and other decision makers may have for departing from what has been done before The phenomena under investigation include the law and practice of common law and civil jurisdictions around the world In addition to its fundamental relevance to common law jurisdictions this work will be of broad and significant interest to theoretically minded audiences in continental Europe Latin America and Asia because it involves an extensive study of practices of precedent in civil law systems as well as common law systems
