Plastics End Use Applications Donald V. Rosato, 2011-08-04 Plastics End Use Applications is a SpringerBrief designed to keep professionals in the plastics industry abreast of key technical developments, business strategies, and marketing initiatives in plastics and competitive materials that impact sales and usage. It is concisely focused on the five major competitive material areas: plastic, metal, paper, wood, rubber, and glass, and ceramic, and how they interact in the twenty major plastic end use market segments. For the global plastics professional, this book offers a way to enhance plastics technical and marketing insights. Plastics End Use Applications is of most value to manufacturing engineers, research and development professionals, and general researchers interested in plastics and materials science. Automobile Industry Leon R. Domansky, 2006 Like it or not, the automobile industry is now and will remain an overwhelming factor in the lives of most people. If not an owner and driver, then as a pedestrian or a breather of air, which is being polluted by the gas-guzzling and vile air-belching monsters created for our individual hedonistic pleasure. This book presents issues of current interest to those who cannot ignore their presence. **Departments of Transportation, and Housing and Urban Development, and**
