Information Needs Analysis Daniel G. Dorner,G. E. Gorman,Philip J. Calvert,2014-12-31 If you want to provide an information service that truly fulfils your users needs this book is essential reading Analysing and assessing the information needs of clients is key to the provision of effective service and appropriate collections in both face to face and virtual library services The importance of information needs analysis is widely recognized by information professionals but currently there is little substantive detailed work in the professional literature devoted to this important topic This new book is designed to fill that gap by supporting practitioners in developing an information needs analysis strategy and offering the necessary professional skills and techniques to do so It will offer guidance to team leaders and senior managers in all areas of library work especially those involved in collection management service provision and web development and is equally applicable to the needs of academic public government commercial and other more specialized library and information services The text adopts a hands on jargon free approach and includes relevant examples case studies reader activities and sources of further reading Key areas covered include what is information needs analysis how is needs analysis conducted what are the varieties of needs analysis how are analyses evaluated and reported Readership The book will be essential reading for library and information practitioners team leaders and senior managers It will also be a core text on course reading lists in departments of library and information studies *Understanding the Stigma of Mental Illness* Julio Arboleda-Flórez,Norman Sartorius,2008-09-15 Many mentally ill people are the victims of stigma which leads to additional suffering and humiliation

Negative stereotypes and prejudicial attitudes against them are often reinforced by their media representation as unpredictable violent and dangerous. Hence the importance of the study of stigma as an explanatory construct of much that transpires in the management of the mentally ill in our societies. This book describes the experience of stigmatization at the level of the individual and seeks to measure stigma and discrimination from the following perspectives: Self imposed stigma due to shame, guilt and low self esteem; Socially imposed stigma due to social stereotyping and prejudice; and Structurally imposed stigma caused by policies, practices and laws that discriminate against the mentally ill. This book briefly describes programmes that aim to reduce such stigma, then looks at ways to evaluate their effectiveness. It is the first book to focus on evaluation and research methodologies in stigma and mental health. It also presents new interventions to reduce stigma, describes the various international programmes which help reduce stigma, discusses the use of the internet as an international tool to promote awareness of stigma in mental health. *Understanding the Stigma of Mental Illness* is essential reading for clinicians and researchers who wish to apply or develop stigma reduction programmes. It is also a valuable addition to the libraries of political analysts, policy makers, clinicians, researchers and all those interested in how to approach and measure this distressing social phenomenon.

Assessment Practice in Student Affairs John H. Schuh, M. Lee Upcraft, 2001. When *Assessment in Student Affairs* was first published in 1996, readers found a practical context for viewing the power of assessment across the domain of student services. Since then, John H. Schuh and M. Lee Upcraft have received numerous requests for more specific guidance to assessing and communicating the value of student affairs. This manual continues the work begun in their earlier book and provides a full range of tools for conducting effective assessments. The authors begin with an overview of the assessment process and then detail a range of methodologies, approaches and issues, explaining how to use them and when to recruit expertise from other campus sources. Drawing from the latest practice and a wealth of case studies, they discuss Qualitative assessment including how to conduct focus groups; Quantitative assessment including how to select and design instruments; Data collection and analysis including mailed questionnaires, telephone surveys and Web based surveys; Assessing diverse needs, satisfaction, outcomes, environments, cost, effectiveness and accreditation; Specialized assessment studies including how to review dropouts, graduates, academic success and group educational programs; Select programs in student services including first year programs, recreation programs, financial aid, admissions, residence halls, college unions, health services, career services, counseling services, judicial affairs and Greek life; Organizational and ethical approaches to assessment.
