The Pleasure in Drawing Jean-Luc Nancy, 2013-07-16 The renowned philosopher contemplates the medium of drawing in a book full of dazzling insights imaginative curves and provocative renewals Sarah Clift University of King's College In 2007 philosopher Jean Luc Nancy curated an exhibition at the Museum of Fine Arts in Lyon This book originally written for that exhibition explores the interplay between drawing and form viewing the act of drawing as a formative force Recalling that the terms drawing and design were once used interchangeably Nancy notes that drawing designates a design that remains without project plan or intention His argument offers a way of rethinking a number of historical terms sketch draft outline plan mark notation which includes rethinking drawing in its graphic filmic choreographic poetic melodic and rhythmic senses For Nancy drawing resists any kind of closure and therefore never resolves a tension specific to itself Drawing allows the gesture of a desire that remains in excess of all knowledge to come to appearance Situating drawing in these terms Nancy engages a number of texts in which Freud addresses the force of desire in the rapport between aesthetic and sexual pleasure texts that also turn around questions concerning form in its formation Between sections of his text Nancy includes a series of sketchbooks on drawing composed of quotations on art from different writers artists or philosophers Plato on Pleasure and the Good Life Daniel Russell, 2005-09-15 Daniel Russell examines Plato's subtle and insightful analysis of pleasure and explores its intimate connections with his discussions of value and human psychology Russell offers a fresh perspective on how good things bear on happiness in Plato's ethics and shows that for Plato pleasure cannot determine happiness because pleasure lacks a direction of its own Plato presents wisdom as a skill of living that determines happiness by directing one s life as a whole bringing aboutgoodness in all areas of one s life as a skill brings about order in its materials. The materials of the skill of living are in the first instance not things like money or health but one s attitudes emotions and desires where things like money and health are concerned Plato recognizes that these materials of the psyche are inchoate ethically speaking and in need of direction from wisdom Among them is pleasure which Plato treats not as a sensation but as an attitude with which one ascribes value to its object However Plato also views pleasure once shaped and directed by wisdom as a crucial part of a virtuous character as a whole Consequently Plato rejects all forms of hedonism which allows happiness to be determined by a part of the psyche that does not direct one slife but is among the materials to be directed At the same time Plato is also able to hold both that virtue is sufficient for happiness and that pleasure is necessary for happiness not as an addition to one s virtue but as a constituent of one s whole virtuous character itself Plato thereforeoffers an illuminating role for pleasure in ethics and psychology one to which we may be unaccustomed pleasure emerges not as a sensation or even a mode of activity but as an attitude one of the ways in which we construe our world and as such a central part of every **Translation, the Canon and its Discontents** Miguel Ramalhete Gomes, 2017-08-21 This collection addresses character the complex process by which translation and other forms of rewriting have contributed to canon formation revision

destabilization and dismantlement Through the play between version and subversion which is inherent to any form of rewriting these essays focusing on translations since the sixteenth century down to the present day stress the role of translation and adaptation as potentially transformative mediations capable of shaping and undermining identities Such manipulation is deeply ambivalent since it can be used as a means of disseminating the ideology of oppressive regimes at the expense of the source text but it can also serve to garner attention to marginalised texts. This tense interplay between political social and aesthetic purposes almost inevitably generates discontents which may turn out to be the outcome of translation in general However discontent is a relational concept depending on where one stands in the field of competing positions that is the canon The Thousand and One Days Miss Pardoe (Julia),1857 The Oxford Handbook of British Poetry, 1660-1800 John T.
