Wollmann, 2019-03-30 The Integrated Astrological Guide continues with this second volume This particular text deals with the encoding of information both astrologically and generally that interferes with and colors our critical thinking skills and ability for accurate foresight Although myths are used to convey concepts the running theme in all works is that neither astrology nor myths cause anything and that each person's reality is the result of free will effort and choices at every given moment They do however reflect engrained archetypal belief structures passed down over millennia Those belief structures do affect reality Logical rules will be increased in this volume and fallacious thinking illuminated not only in traditional astrological principles but in widely accepted social attitudes **The Integrated Astrological Guide to Self-empowerment** Edmond H.

with new and expanded insight A complete explanation of how we bring our early environment and beliefs into adulthood and create our reality and experiences is explored and explained psychologically metaphysically and pragmatically This book blends many different philosophies and gives the message that using astrology can be a tool to self understanding and transformation that it is not a mysterious tool of divination but that it can be used to examine our existing beliefs and that it is up to us what we do with that knowledge The ideas in this book challenge the reader to look at the responsibility they have for their own lives and begin to teach how to do this using astrology The individual interpretations of placements are basic The author has delved to the core of the meanings of the archetypes from a psychological perspective The results are dynamic all encompassing yet specific to the placement keys with which to begin delineations This is something that has been lacking in many other astrology books with more shallow definitions There are several example delineations of charts which take the reader through the process of using this information in a complete chart showing how the insight from the previous chapters can be used to read a chart Definitely a work of text book caliber not a coffee table book
