

The original Ford Bronco could be considered to be ahead of its time. It was Ford's first compact SUV vehicle, a category which has become so popular today. The Bronco remained basically unchanged from 1966 to 1977, and has extended to 5 generations. Based on a 60 inch wheelbase, the first Bronco was intended as an off-road multi-purpose truck with 4 wheel drive. The base price was under \$2,000 when it was introduced. The original Bronco offered a long list of options, but was considered a very basic vehicle. It was designed with a clear sheet, and unlike the Mustang, it did not use an existing platform. There were two engines to choose from, a straight 6 cylinder or a more powerful small block V-8, and three body styles, a wagon, a half-cab or a roadster. Other options included such things as a being-a-may spare tire and bench-style back seat.

Le premier Ford Bronco était en avance sur son temps. C'est la première VUS compacte de Ford, une catégorie devenue extrêmement populaire de nos jours. Le Bronco est essentiellement resté inchangé de 1966 à 1977, et couvre 5 générations. Basé sur un empattement de 233 cm, le premier Bronco était prévu au départ pour être un camion multifonctions tout-terrain à 4 roues motrices. À son lancement, son prix de départ était inférieur à 2 000 \$. Le Bronco d'origine avait une longue liste d'options, mais c'était toujours resté un véhicule très basique. Il a été conçu sur une plateforme ad-hoc. Deux moteurs étaient à cylindre simple ou V8 à petit bloc disponibles et trois styles de carrosserie (wagon, cabine monoplace décapotée ou roadster) étaient offerts. Les autres options incluaient une roue de secours à bande et un siège arrière de type bancquette.

El Ford Bronco original se podría considerar que estuvo adelantado a su tiempo. Fue el primer vehículo SUV compacto de Ford, una categoría que se ha vuelto extraordinariamente popular hoy en día. El Bronco se mantuvo básicamente sin cambios desde 1966 hasta 1977, y se extendió a 5 generaciones. Basado en una distancia entre ejes de 92 pulgadas, el primer Bronco estaba previsto como un camion todo terrenos, y con tracción en las 4 ruedas. El precio base era inferior a \$2,000 cuando fue su debut. El Bronco original ofreció una larga lista de opciones, pero aún seguía siendo un vehículo muy básico. Fue diseñado a partir de un motor derecho, y el contrabando para el Mustang, no fue uno de una plataforma existente. Hubo dos motores para elegir, uno de 6 cilindros en línea o un motor más potente V8 de bloque pequeño, y tres estilos de carrocería tipo wagon, tipo media cabina o descapotable. Otras opciones incluían cosas tales como el neumático de repuesto que se adjunta a un lado y el asiento trasero de estilo banco.
