

Yugoslavian Model 48/48A Mausers

A Mauser Model 98 Variation

The Mauser 98 has been the most successful and copied bolt action rifle ever produced. In its various configurations, it has been used by most countries of the world as its principle military rifle. It was a vast improvement over existing models combining far greater strength and reliability than previous firearms.

Besides being a military rifle, it has been the basis of many of the world's finest custom rifles. Since its introduction in 1898, it has remained in production as a military or sporting rifle. Originally designed with a 30" barrel, this firearm has undergone many changes as each country wanted to customize "their needs". Most changes were in the barrel length, handguards, sights, stocks and band configurations.

The Yugoslav Model 48/48A is one of these variations incorporating the strength and simplicity of the original design. It is very similar to the WWII German Model with the exception of some cosmetic changes of the handguard design and the receiver is 1/8" shorter. Your Model 48/48A Mauser is designed for 8mm Mauser Ammunition (also known as 7.92x57 Mauser). Keep your rifle clean and lightly oiled, use good ammunition and with reasonable care, it will last a lifetime.

Attention:

Your Mauser has been stored in protective grease for over 50 years. It has been cleaned to facilitate handling. However, we strongly recommend for your safety that your gun be disassembled and cleaned before firing. CAUTION: THE BORE AND CHAMBER HAVE BEEN LEFT WITH A LIGHT COAT OF GREASE TO PREVENT RUST. YOU MUST CLEAN THEM THOROUGHLY BEFORE SHOOTING.
