

Figure 1.2. Example of a general configuration of a TankRadar L/2 System.

All the measured data is presented to the operator by the Operator's Interface, which in its complete version contains inventory functions. A plant host computer can be connected for further processing of data.

All Saab Tank Control supplied parts for tank top mounting weigh less than 25 kg (55 lb) (except for pressure flange etc. for the LPG/LNG Gauge). This makes it possible for one man to carry the various TankRadar parts to the tank top for installation.

Please read the Technical Description for a more detailed description of the Saab TankRadar L/2 system.
