Handbook of social work with groups 2006 *The Oxford Handbook of Adolescent Substance Abuse* Robert A. Zucker, Sandra A. Brown, 2019-08-01 Adolescent substance abuse is the nation's 1 public health problem. It originates out of a developmental era where experimentation with the world is increasingly taking place and where major changes in physical self and social relationships are taking place. These changes cannot be understood by any one discipline nor can they be described by focusing only on the behavioral and social problems of this age period: the characteristics of normal development or the pharmacology and addictive potential of specific drugs. They require knowledge of the brain's systems of reward and control, genetics, psychopharmacology, personality, child development, psychopathology, family dynamics, peer group relationships, culture, social policy, and more. Drawing on the expertise of the leading researchers in this field, this Handbook provides the most comprehensive summarization of current knowledge about adolescent substance abuse. The Handbook is organized into eight sections covering the literature on the developmental context of this life period, the epidemiology of adolescent use and abuse, similarities and differences in use, addictive potential and consequences of use for different drugs, etiology and course as characterized at different levels of mechanistic analysis ranging from the genetic and neural to the behavioural and social. Two sections cover the clinical ramifications of abuse and prevention and intervention strategies to most effectively deal with these problems. The Handbook's last section addresses the role of social policy in framing the problem in addressing it and explores its potential role in alleviating it. **Digest of Education Statistics** Thomas D. Snyder, 1997-02 This edition is the 30th in a series of publications initiated in 1962. Its primary purpose is to provide a compilation of statistical information covering the broad field of American education from kindergarten through graduate school. The publication contains information on a variety of subjects including 1 numbers of schools and colleges 2 numbers of teachers 3 enrollments 4 graduates 5 educational attainment 6 finances 7 Federal funds for education 8 employment and income of graduates 9 libraries and 10 international comparisons of education. Supplemental information is provided on population trends, attitudes toward education, educational characteristics of the labor force, government finances and economic trends. Some information is also given on preschool and adult education. Data are presented in 411 tables with an additional 20 tables in an appendix. SLD Family Support as Reflective Practice John Canavan, John Pinkerton, Pat Dolan, 2006-01-27 Contributors to this book provide international perspectives on core issues in family support. Providing a combination of clear theoretical frameworks and practical guidance with clear how-to messages and a strong emphasis on evaluation, this book will be of interest to social workers working in all areas of family support. **The Classroom Teacher** Milo Burdette Hillegas, Thomas Henry Briggs, 1929 Trends in the Well-being of America's Children and Youth, 2001 *Writing Empirical Research Reports* Fred Pirczak, Randall R.
