Teaching Economics in Troubled Times Mark C. Schug, William C. Wood, 2011-01-03 In the Great Recession of 2007 2010 Americans watched their retirement savings erode and the value of their homes decline while the unemployment rate increased and GDP sank New demands emerged for unprecedented government intervention into the economy While these changes have a dramatic impact on society at large they also have serious implications for the content and teaching of economics Teaching Economics in a Time of Unprecedented Change is a one stop collection that helps pre and in service social studies teachers to foster an understanding of classic content as well as recent economic developments Part I offers clear and teachable overviews of the nature of today s complex economic crisis and the corollary changes in teaching economics that flow from revising and updating long held economic assumptions Part II provides both detailed best practices for teaching economics in the social studies classroom and frameworks for teaching economics within different contexts including personal finance entrepreneurship and history Part III concludes with effective strategies for teaching at the elementary and secondary school levels based on current research on economic education From advice on what every economics teacher should know to tips

for best education practices to investigations into what research tells us about teaching economics this collection provides a wealth of contextual background and teaching ideas for today s economics and social studies educators Additional information and resources can be found at the authors website neweconsteaching.com

Sustainable Development of Algal Biofuels in the United States National Research Council,Division on Engineering and Physical Sciences,Board on Energy and Environmental Systems,Division on Earth and Life Studies,Board on Agriculture and Natural Resources,Committee on the Sustainable Development of Algal Biofuels,2012-12-18 Biofuels made from algae are gaining attention as a domestic source of renewable fuel However with current technologies scaling up production of algal biofuels to meet even 5 percent of U S transportation fuel needs could create unsustainable demands for energy water and nutrient resources Continued research and development could yield innovations to address these challenges but determining if algal biofuel is a viable fuel alternative will involve comparing the environmental economic and social impacts of algal biofuel production and use to those associated with petroleum based fuels and other fuel sources Sustainable Development of Algal Biofuels was produced at the request of the U S Department of Energy

Food Texturology: Measurement and Perception of Food Textural Properties Andrew Rosenthal, Jianshe Chen, 2023-12-20 The concept behind this book is to take a holistic view of food texture starting with the determination of food texture its perception in the mouth and its measurement by both sensory and instrumental methods and to examine the relation between them The book has been divided into four sections Fundamentals Sensory and Human Interactions Instrumental Analysis and Food Products Essentially we cover the techniques used for measuring food texture and then apply them to the different product groups Readers of the first edition will notice the title has changed with the adoption of the term texturology In the long history of food texture research texturology has been occasionally used in literature The term texturology has not been widely accepted by texture researchers texturologists because of their concern over whether the theories and techniques are broad and strong enough to support texture research as a scientific discipline During the 24 years since the publication of the first edition the editors have observed vast developments in theories as well as the assessment methodology of food texture both sensory and instrumental and these have shaped our understanding This second edition brings the science up to date by introducing topics not previously covered e g psychophysics tribology oral processing texture maps and special foods for dysphagia patients It includes an expos of the instruments to measure food texture and also considers techniques for measuring consumer perception of food texture in addition to the sensory properties Additionally it amends omissions from the first edition such as dairy products fish bakery products and sugar confectionery as product groups All in all it is expanded and updated in its coverage of food texturology as a coherent scientific discipline

Biomaterials for Brain Therapy and Repair Sara Pedron, Brendan A.C. Harley, 2019-02-06 Prevalence of brain related diseases is expected to increase significantly in the next decades Therefore there is a vital need to develop effective personalized models of human brain that can provide information about brain development and the unique neurobiology of brain disorders The use of biomaterials can
