Compatible with OEM Owners Manual, Factory Glovebox Book Helming,2012-05-10 Heavy Flow Amanda Laird,2019-02-23 Finalist for the 2020 Kobo Emerging Writer Prize in Nonfiction What do you know about your menstrual cycle Your menstrual cycle is your fifth vital sign a barometer of health and wellness that is as telling as your pulse or blood pressure Yet most of us see our periods as nothing more than a source of inconvenience and embarrassment The reasons for this are vast and complex and many are rooted in misogyny The fact is women the world over are taught the bare minimum about menstruation and the messages they do receive are negative that periods are painful and gross that they turn us into hormonal messes and that they shouldn t be discussed By examining the history of period shame and stigma and its effects on women s health and wellness today as well as providing a crash course in menstrual self care Heavy Flow aims to lift the veil on menstruation breaking the curse once and for all **Executive Functions in Psychiatric Disorders** Leandro

Fernandes Malloy-Diniz,Débora Marques de Miranda,Rodrigo Grassi-Oliveira,2017-10-17 Executive Functions comprise a range of neuropsychological processes related to intentional behavior and cognitive control There are several theoretical models defining and explaining the concept of Executive Functions Most of these models consider that the term Executive Functions encompasses cognitive process as working memory cognitive flexibility inhibitory control and other complex functions as planning problem solving and abstract reasoning Other models argue that motivational and emotional functions such as affective decision making reside under the concept of Executive Function Much evidence supports how complex cognitive functions are related to the physiological activity of brain networks including the frontal cortex and its connections with subcortical structures Several psychiatric disorders related to impairment in these brain networks eg bipolar disorder schizophrenia ADHD obsessive compulsive disorder and drug addiction leading to deficits in Executive Functions These cognitive deficits affect patients everyday functioning worsening the clinical course of the disease For example deficits in Executive Functions are related to suicide behavior in bipolar disorder patients Furthermore these deficits also relate to obesity a lack of adherence to treatment and an underperformance in the workplace and educational settings The

understanding of the role of deficits in Executive Functions including its neurobiological basis developmental trajectories and relationship with clinical outcomes is fundamental to improve clinical management of psychiatric patients This research topic includes 13 articles with interdisciplinary contributions related to the understanding of the deficits in Executive Functions and its relationship with clinical manifestations in psychiatric disorders
