Class and Group Actions in Arbitration Bernard Hanotiau, Eric A. Schwartz, 2016-09-23 Several decades ago a typical arbitration would involve one claimant against one respondent Over the years more and more cases involve several claimants against several respondents Today one third of all international ICC arbitrations seem to involve multiparty cases multi contract cases involving multiple contracts multiple parties The evolution has continued and the debate today is whether it would be possible for a class of people in the same situation or a group of citizens having the same interest to start one single arbitration procedure as a group or as a class This publication examines the complex issues involved in class or group arbitration on a comparative law basis Is there a place for such proceedings within the framework of the arbitration process Class action procedures as developed in the United States court system and more recently in Canada are almost nonexistent in Europe The European Commission has advocated collective redress as an important means of access to justice but class actions have found little enthusiasm in the Members States The book highlights the lessons which have been learned from the experience of cases in the US and in Europe What does the future hold for class collective and mass arbitrations Are they a marginal phenomenon or has their potential yet to be realized What are possible solutions to the issues that have been encountered Can we expect to see more of such arbitrations in the future Written by arbitrators academics and practitioners this Dossier will provide the answers to these questions and many more

Making of an African Giant Dan Mou, 2015-10-16 The performance of Nigeria has recently been vehemently criticized as not commensurate with her human and material potentialities The hope that Nigeria is by destiny the African Giant appears to be fading Some analysts seeing this have blamed it on the character defects of the leadership in Nigeria They argue that because the leaders are predatory and corrupt they have preoccupied themselves with their interests which are primitive accumulation and luxurious lifestyles Meanwhile the rest of the citizens are suffering This book argues that such character defects may indeed exist in some of Nigerian leaders However these are not the main reasons for their dismal performance regarding the welfare of the citizens The main problem is that Nigerian leaders seem to have largely lost control over the state and its policies which appear to have been captured by the dominant classes and groups local and international Nigerias main problem is therefore a structural one Nonetheless the book concludes as the security economic political and social crises intensify Nigerian leaders even if it is simply for self preservation will be forced by the objective conditions to move against the interests of these dominant classes and groups It is only then

that Nigeria can realistically be restored to the possibility of becoming an African Giant

Obama Power Jeffrey C. Alexander, Bernadette N. Jaworsky, 2014-08-12 What is the source of Obama's power How is it that after suffering a humiliating defeat in the 2010 mid term elections Obama was able to turn the situation around deftly outmaneuvering his opponent and achieving a decisive victory in the November 2012 presidential election In this short and brilliant book Jeffrey Alexander and Bernadette Jaworsky argue that neither money nor demography can

explain this dramatic turnaround What made it possible they show was cultural reconstruction Realizing he had failed to provide a compelling narrative of his power the President began forging a new salvation story It portrayed the Republican austerity budget as a sop to the wealthy and Obama as a courageous hero fighting for plain folks against the rich The reinvigorated cultural performance pushed the Tea Party off the political stage in 2011 and Mitt Romney became fodder for the script in 2012 Democrats painted their Republican opponent as a backward looking elitist a Bain capitalist whose election would threaten the civil solidarity upon which democracy depends Real world events can spoil even the most effective script Obama faced monthly unemployment numbers the daunting Bin Laden raid three live debates and Hurricane Sandy The clumsiness of his opponent and his own good fortune helped the President but it was the poise and felicity of his improvisations that allowed him to succeed a second time Converting events into plot points the President demonstrated the flair for the dramatic that has made him one of the most effective politicians of modern times While persuasively explaining Obama's success this book also demonstrates a fundamental but rarely appreciated truth about political power in modern democratic societies namely that winning power and holding on to it have as much to do with the ability to use symbols effectively and tell good stories as anything else Reflexive Governance in EU Equality Law Emma Lantschner, 2021-10-21 The Covid 19 pandemic has revealed how far we as a European society still are from the proclaimed Union of Equality The book explores how the promise of equal treatment can become a reality and compliance with the EU acquis relating to equality and non discrimination can be improved It studies enforcement and promotion aspects of the two watershed directives of 2000 the Racial Equality Directive 2000 43 EC and the Employment Equality Directive 2000 78 EC through the lens of reflexive governance This governance approach is proposed as having great potential in enhancing the likelihood of sustainability or continuation of reforms in the current candidate countries and EU Member States through its emphasis on reflexive learning processes and the cooperation between EU institutions national authorities and civil society actors In order to deploy this potential there is however a need for more consistent and transparent monitoring both with regard to candidate countries as well as old and new Member States and a reconsideration of the understanding of monitoring as such It should be seen as helping to deconstruct own preference formations and as a possibility to learn from successes and failures in a cooperative and recursive process To work on these lacunae and improve learning and monitoring processes this book identifies indicators that are deduced from the comparative review of the implementation practice of the member states This book is thus a contribution to the existing literature in the fields of Europeanization governance and the right to equality and non discrimination National Security, Good Governance & Democracy in Africa Dr. Dan Mou, 2016-01-29 This book demonstrates that national security and good governance are opposite sides of the same coin As good governance improves national security also improves in that challenges to national security become lesser and lesser in such a society It concludes that for most of Africa this is not happening fast enough Thus creating fertile grounds for their citizens especially the youths

to resort to self help measures some of which include violence and militancy These have further complicated the issues of national security good governance and democracy in Africa Praise for the Book This book is a must read Dr Dan Mou a world class trained political scientist who has served at various ministries and parastatals in Nigeria before retirement has made stunning revelations Lead Times Africa Magazine Dr Dan Mou a varsity don and seasoned civil servant who spent over two decades working in Nigerias Presidency provides deep insights in this book into the intractable security situation in Nigeria and Africa He also x rays economic policies among other issues Daily Trust Having successfully designed and masterminded many workable national schemes in the past in Nigeria like the memoranda that led to the establishment of the Economic and Financial Crimes Commission EFCC Ministry of Niger Delta Affairs Amnesty Programme for the Niger Delta Region to mention just a few Dr Dan Mou in this book has proposed permanent solutions it is no fallacy to say that no one else could have done it better Dr O W Bashorun Provost College of Education Lagos Nigeria *America Ascendant* Stanley B.

Greenberg,2015-11-03 America is poised to lead the 21st Century as it led the 20th That will happen because the country is at a tipping point in the battle for its own renewal a renewal that will allow America to be exceptional again Our economy is on the move fueled by revolutions in energy immigration innovation big data and advanced manufacturing America s energy independence has set off shockwaves Just as important are the social transformations that are making the country ever more racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America s on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country s growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being gridlocked and he articulates a powerful vision of how American politics and America can be renewed **Microeconomics** Samuel Bowles,Simon D.

Halliday,2022 The authors bring into the classroom the ideas that today s researchers and policy makers use including behavioral economics game theory and incomplete contracts Modern microeconomics is applied to pressing issues that students care about inequality climate change and innovation and illustrated with empirical case studies **Finance and Occupational Pensions** Charles Sutcliffe,2016-11-25 Occupational pensions are major participants in global financial markets with assets of well over 30 trillion representing more than 40% of the assets of institutional investors Some

occupational pension funds control assets of over 400 billion and the largest 300 occupational pension funds each have average assets of over 50 billion The assets of UK pension funds are equivalent to UK GDP and US pension fund assets are 83% of US GDP These statistics highlight the importance of pension funds as major players in financial markets and the need to understand the behaviour of these large institutional investors Occupational pensions also play an important but neglected role in corporate finance For example US company pension schemes account for over 60% of company market value and yet they are often ignored when analysing companies This book is based on the substantial body of evidence available from around the world on a topic that has become increasingly important and controversial in recent years Written for practitioners students and academics this book brings together and systematizes a very large international literature from financial economists actuaries practitioners professional organizations official documents and reports The underlying focus is the application of the principles of financial economics to occupational pensions including the work of Nobel laureates such as Merton Markowitz Modigliani Miller and Sharpe as well as Black This book will give readers an up to date understanding of occupational pensions the economic issues they face and some suggestions of how these issues can be tackled The first section explains the operation of defined benefit and defined contribution pensions along with some descriptive statistics The second section covers selected aspects of occupational pensions The focus of these first two sections is on the economic and financial aspects of pensions accompanied by some basic information on how they operate This is followed by three further sections that analyse the investment of pension funds the corporate finance implications of firms providing pensions for their employees and annuities

National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven

himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria Corporations Are Not People Jeffrey D. Clements, 2014-08-18 A revised and updated edition of the definitive guide to overturning Citizens United Since the Supreme Court's Citizens United ruling that the rights of things money and corporations matter more than the rights of people America has faced a crisis of democracy In this timely and thoroughly updated second edition Jeff Clements describes the strange history of this bizarre ruling its ongoing destructive effects and the growing movement to reverse it He includes a new chapter Do Something showing how state by state and community by community Americans are using creative strategies and tools to renew democracy and curb unbalanced corporate power Since the first edition sixteen states one hundred sixty members of Congress and five hundred cities and towns have called for a constitutional amendment to overturn Citizens United and the list is growing This is a fight we can win More relevant than ever this updated edition of Corporations Are Not People chronicles the remarkably vibrant nationwide grassroots movement to get money out and voters in Katrina vanden Heuvel Editor and Publisher The Nation

National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One Dr. Dan Mou, 2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use *Contemporary Oligarchies in Developed Democracies* Shelly Gottfried, 2019-04-01 The book analyzes concentrations of wealth and power in developed democracies It shows that economic measures which states adopted during the 1980s and 1990s had evolved first into liberal oligarchy and later after

the 2007 2008 global financial crisis into illiberal and populist oligarchy The shape and content of these two kinds of oligarchy have been determined largely because of practices and political strategies that powerful state and market actors employed This project will appeal to a wide audience including academics researchers students and anyone who is interested in oligarchy political power IR political economy and sociology

Charter School Report Card Shawgi Tell, 2016-04-01 What is a charter school Where do they come from Who promotes them and why What are they supposed to do Are they the silver bullet to the ills plaguing the American public education system This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions It shows that charter schools as a whole lower the quality of education through the privatization and marketization of education The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements Society and its members need a fully funded high quality public education system open to all and controlled by a public authority

A Brighter Future Richard Holt, Daphne Greenwood, 2014-12-18 As the United States continues its slow climb out of the Great Recession it is important to focus on new directions to improve the standard of living in America This book explores what is behind a faltering standard of living in the United States since the early 1980s and what can be done to restore it The book is uniquely valuable in going beyond mainstream thinking about how to restore prosperity Economics has traditionally equated economic growth increases in per capita income with improvements in quality of life and the standard of living This book questions that assumption The different chapters in the book show the standard of living as being more than income to include many non market aspects such as access to public goods roads clean air and water schools parks and museums intangible aspects of quality of life such as equity and a sense of community and broadly based economic opportunities This means that improving the standard of living is a multi dimensional challenge rather than one of solely increasing aggregate demand productivity or GDP This book embodies a pluralistic approach and draws on the expertise of a wide array of thinkers The intended audience is for various courses offered in economics sociology political science public policy programs and in environmental and ecological studies
