Lutz-Christian Wolff,2020-12-07 Written by an award winning professor with over 25 years of experience this book explains comprehensively the different facets of law teaching from the law teacher s perspective It uniquely covers numerous topics which have been ignored by the legal education literature so far but which are of immense importance for the success of law students law schools and last but not least the day to day work of law teachers themselves These topics include the goals of law teaching the factors that lead to successful law teaching special characteristics of good law teachers different ways of preparing for in class success face to face versus online teaching the in class teaching experience assessments teaching evaluations the design of new courses and programmes the teacher student and the teacher teacher relationship the importance of teaching administration as well as the future of law teaching in the digital age The author approaches various themes from the viewpoint of his own experience He tells his very personal stories of classroom success and failure of enthusiasm fun and disappointments when dealing with law students of accomplishments and frustrations when considering learning outcomes and of surprises when dealing with red tape He thus allows the readership to grasp different aspects of law teaching in a very hands own way and facilitates the understanding of the underlying often rather complex human to human relationships This book should be in the bookshelf of any law teacher As it covers a wide spectrum of so far unexplored legal education issues it is also an invaluable source at the start of a law teaching career but also for established law teachers who wish to reflect on their own teaching approaches A rich body of cross references to the existing literature makes the book a powerful tool for research on any aspect of legal education Last but not least the author s ironic sense of himself and of the law teacher profession makes the book a very entertaining read for anybody who always wanted to know what law teaching really is and is not about **Education Law, Strategic Policy and Sustainable Development in**

Grimes,Edward Phillips,2016-04-22 The importance of simulation in education specifically in legal subjects is here discussed and explored within this innovative collection Demonstrating how simulation can be constructed and developed for learning teaching and assessment the text argues that simulation is a pedagogically valuable and practical tool in teaching the modern

law curriculum With contributions from law teachers within the UK Australia Hong Kong South Africa and the USA the authors draw on their experiences in teaching law in the areas of clinical legal education legal process evidence criminal law family law and employment law as well as teaching law to non law students They claim that simulation as a form of experiential and problem based learning enables students to integrate the classroom experience with the real world experiences they will encounter in their professional lives This book will be of relevance not only to law teachers but university teachers generally as well as those interested in legal education and the theory of law      *Globalisation of Corporate Social Responsibility and its Impact on Corporate Governance* Jean J. du Plessis, Umakanth Varottil, Jeroen Veldman, 2018-02-01 This book addresses the increasing overlap between Corporate Social Responsibility CSR and law with a particular focus on company law and corporate governance What is the impact of CSR on company law and corporate governance and vice versa How do these systems impact on CSR Do they enable require or prevent the socially responsible conduct of companies for example through corporate theory directors duties or disclosure laws What is the role of shareholders and directors in the promotion of CSR The theme of the book ensures a sharing of ideas and experiences globally and internationally for all jurisdictions to consider core legal and social aspects of CSR      Private International Law Sai Ramani Garimella, Stellina Jolly, 2017-01-19 This book shows how with the increasing interaction between jurisdictions spearheaded by globalization it is gradually becoming impossible to confine transactions to a single jurisdiction Presented in the form of a compendium of essays by eminent academics and practitioners in the field it provides a detailed overview of private international law practice in South Asian nations addressing contemporary discourse within this knowledge domain Conflict of laws private international law arises from the universal acknowledgment that it is difficult to govern human transactions solely by the local law The research presented addresses the three major threads of private international law jurisdiction choice of law and enforcement within each of the South Asian countries in the areas of family law and commercial law The research in family law domain includes traditional areas such as marriage divorce and maintenance as well as some of the contemporary concerns in this region inter country child retrieval surrogacy and the country statement on accession to the Hague Conventions related to this domain In commercial law the research explores the concerns raised with regard to choice of law issues in transnational contracts and also enforcement of foreign judgment arbitral awards in the nations of this region      **Bangladesh and International Law** Mohammad Shahabuddin, 2021-02-22 This book is the first ever comprehensive analysis of international law from Global South perspectives with specific reference to Bangladesh The book not only sheds new light on classical international law concepts such as statehood citizenship and self determination but also covers more current issues including Rohingya refugees climate change sustainable development readymade garment workers and crimes against humanity Written by area specialists the book explores how international law shaped Bangladesh state practice over the last five decades how Bangladesh in turn contributed to the development of

international law and the manner in which international law is also used as a hegemonic tool for marginalising less powerful countries like Bangladesh. By analysing stories of an ambivalent relationship between international law and post colonial states the book exposes the duality of international law as both a problem solving tool and as a language of hegemony. Despite its focus on Bangladesh the book deals with the more general problem of post colonial states problematic relationship with international law and so will be of interest to students and scholars of international law in general as well as those interested in the Global South and South Asia in particular.

Established law teachers will come to grips with the power of clinical method. Law students struggling with overly dry conceptual content will experience the connections between skills the law and real life. Regulators will look again at law curricula and ask law deans when
