Views from the Streets Roberto Aspholm,2020-02-04 Chicago has long served as a symbol of urban pathology in the public imagination The city s staggering levels of violence and entrenched gang culture occupy a central place in the national discourse yet remain poorly understood and are often stereotyped *Views from the Streets* explains the dramatic transformation of black street gangs on Chicago s South Side during the early twenty first century shedding new light on why gang violence persists and what might be done to address it Drawing on years of community work and in depth interviews with gang members Roberto R Aspholm describes in vivid detail the internal rebellions that shattered the city s infamous corporate style African American street gangs He explores how in the wake of these uprisings young gang members have radically refashioned gang culture and organization on Chicago s South Side rejecting traditional hierarchies and ideologies and instead embracing a fierce ethos of personal autonomy that has made contemporary gang violence increasingly spontaneous and unregulated In calling attention to the historical context of these issues and to the elements of resistance embedded in Chicago s contemporary gang culture Aspholm challenges conventional views of gang members as inherently pathological He critically analyzes highly touted universal violence prevention strategies depicting street level realities to illuminate why they have ultimately failed to reduce levels of bloodshed An unprecedented analysis of the nature and meaning of gang violence *Views from the Streets* proposes an alternative framework for addressing the seemingly intractable issues of inequality despair and violence in Chicago

Professor Lundy's Guide to Rock Music Connoisseurship Duane Emerson Lundy,2023-10-20 This empirical and theoretical book should be of interest to anyone who dares to consider the contentious topic of measuring and justifying aesthetic value in music as well as the issue of how experts compare to nonexperts in terms of aesthetic fluency aesthetic sensitivity and aesthetic judgment in appraising music The book should be both practical and personal for anyone who has a music collection and loves to see it grow continuously but wisely What makes someone an expert The key issue tackled here is how one develops into such a connoisseur of music Overall the book should spark much

healthy debate about rock music quality and aesthetics in general both among scholars of aesthetics and the musically passionate general public Many of the ideas for connoisseur development for music could also be applied to appraisal in other areas of aesthetics beyond music such as films visual art or literature Words of Praise Professor Lundy's Guide to Rock Music Connoisseurship is simply fantastic It is written with elegance eloquence and passion His vast knowledge of rock n roll will enlighten every reader and his enthusiasm for this topic is infectious The book is designed to be comprehensible to any reader but also carefully cited to please the most demanding scholar He successfully aims to teach the reader how to become expert in evaluating the aesthetic quality of music using a precision system to guide us into deeper and defensible judgements on what pieces of music are the best and which are the worst This is a beautiful book that enriches the heart and brightens the mind Rhett Diessner Professor Emeritus of Psychology Lewis Clark State College author of Understanding the Beauty Appreciation Trait Empirical Research on Seeking Beauty in All Things Aesthetic judgments of music are important but poorly understood To the everyday listener they may seem arbitrary or otherwise inexplicable In this book Professor Lundy offers an unashamedly positive view on aesthetic judgments emphasizing their rational nature and showing how various non aesthetic biases that do exist can be minimized The result is a joyful celebration of music science and connoisseurship which is sure to spark further interest and debate on this fascinating topic Professor Patrik N Juslin Music Psychology Group Uppsala University Sweden *Railway Signal* ,1905 Catalog of Copyright Entries ,1976-07 Uncle Will's Hail Town Wilbur Thornton,2016-08-22 My work speaks to questions mens ways the people places of lands power positions lies wars slavery hate to a point of killing The trail of tearsthe indians were willing to share through an equal process the land products Slavery to work the land taken from the indian slaves and blacks became one slavery to death that cannot be right To the so called christian soul the wars are to die and fight on the wrong side of history My work speaks to the fear of skin color How sad and sick must be our minds We can see one soul in the environment and another person in their environment Its just one big lie that keeps the warmth of the sun out of our lives My work carry you one way but lets you go another way In 1914 was the war to end all war We see how that worked out we have the same old sin You may give an answer or not My work is to make one think or not be seen just maybe of the million books out My work speak out when a person loves a dog better than a man When a man because of skin cannot just walk his dog his dog kill the man save the dog
