*Más Agudo, Más Rápido y Mejor* Charles Duhigg, 2016-11-15 La productividad tiene que ver sobre todo con elegir ciertas opciones de ciertas maneras con c mo nos vemos a nosotros mismos y nos enfrentamos a las decisiones cotidianas con las historias que nos contamos y los objetivos f ciles que ignoramos con el sentimiento de grupo

que creamos entre nuestros compañeros de equipo y con las costumbres creativas que instauramos como líderes. Estas son las cosas que diferencian a los simplemente ocupados de los genuinamente productivos. **Manual of Simulation in Healthcare** Richard H. Riley, 2015-10-29 Practising fundamental patient care skills and techniques is essential to the development of trainees' wider competencies in all medical specialties. After the success of simulation learning techniques used in other industries such as aviation, this approach has been adopted into medical education. This book assists novice and experienced teachers in each of these fields to develop a teaching framework that incorporates simulation. The *Manual of Simulation in Healthcare* Second Edition is fully revised and updated. New material includes a greater emphasis on patient safety, interprofessional education and a more descriptive illustration of simulation in the areas of education, acute care medicine and aviation. Divided into three sections, it ranges from the logistics of establishing a simulation and skills centre and the inherent problems with funding, equipment, staffing and course development to the considerations for healthcare-centred simulation within medical education and the steps required to develop courses that comply with best practice in medical education. Providing an in-depth understanding of how medical educators can best incorporate simulation teaching methodologies into their curricula, this book is an invaluable resource to teachers across all medical specialties.
