Airforce Of Zimbabwe Application Forms:

The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980 Darlington Mutanda, 2016-11-10 This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966-1980. Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict. The Rhodesian Air Force was deployed in a war-winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness. Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower. *Outcomes of post-2000 Fast Track Land Reform in Zimbabwe* Lionel Cliffe, Jocelyn Alexander, Ben Cousins, Rudo Gaidzanwa, 2014-06-11

The struggle over land has been the central issue in Zimbabwe ever since white settlers began to carve out large farms over a century ago. Their monopolisation of the better watered half of the land was the focus of the African war of liberation war and was partially modified following Independence in 1980. A dramatic further episode in this history was launched at the start of the last decade with the occupation of many farms by groups of African veterans of the liberation struggle and their supporters which was then institutionalised by legislation to take over most of the large commercial farms for sub-division. Sustained fieldwork over the intervening years by teams of scholars and experts and by individual researchers is now generating an array of evidence-based findings of the outcomes: how land was acquired and disposed of, how it has been used, how far new farmers have carved out new livelihoods and viable new communities, the major political and economic problems they and other stakeholders such as former farm workers, commercial farmers and the overall rural society now face. This book will be an essential starting place for analysts, policy makers, historians and activists seeking to understand what has happened and to spotlight the key issues for the next decade. This book was published as a special issue of the *Journal of Peasant Studies*.

Air Force Magazine, 2011-07. *Political Humour and Zimbabwean Identity on Social Media Platforms* Mbongeni Jonny Msimanga, 2024-12-16. *Political Humour and Zimbabwean Identity on Social Media Platforms* by Mbongeni Jonny Msimanga studies Zimbabwean digital political communication to investigate how political satire constructs, critiques, contests, mediates and negotiates national identity. Focusing on Bustop and Magamba TV, two YouTube channels that specialise in satirical political skits, this book demonstrates what it means to be a Zimbabwean and who or what authorises such belonging. Msimanga traces contestations of Zimbabwe's national identity since independence in 1980, refracted by the Gukurahundi genocide, questioning national sovereignty and national security, the fast-track land reform programme and human rights abuses perpetrated by the incumbent ZANU-PF government. This book provides a conceptual framework that deploys a context-sensitive understanding of satire relevant to the global south and to Zimbabwe. Msimanga concludes that Magamba and Bustop TV are successful in utilising opportunities inherent in the inflection point and crossroads facing Zimbabwe to

open and amplify new spaces for contesting negotiating and critiquing what it means to belong to the national project

Crime and Punishment around the World Graeme R. Newman,2010-10-19 This comprehensive detailed account explores crime and punishment throughout the world through the eyes of leading experts, local authors, and scholars, and government officials. It is a subject as old as civil society, yet one that still fuels debate. Now, the many and varied aspects of that subject are brought together in the four-volume *Crime and Punishment around the World*. This unprecedented work provides descriptions of crimes and the justice systems that define and punish them in more than 200 nations, principalities, and dependencies. Each chapter examines the historical, political, and cultural background, as well as the basic organization of the subject state's legal and criminal justice system. It also reports on the types and levels of crime, the processes leading to the finding of guilt, the rights of the accused, alternatives to going to trial, how suspects are prosecuted for their crimes, and the techniques and conditions of typical punishments employed. Comprising a study that is at once extraordinarily comprehensive and minutely detailed, the essays collected here showcase the variety and the universality of crime and punishment the world over.
