

To begin, one must realize that the days when students were limited in their education to whatever the latest *Encyclopaedia Britannica* book might cover are over. Now, online databanks like Google Scholar, Wikipedia, and Research Gate bring up-to-date data to the classroom freely. For teachers, this has meant sources are relevant, modern, and varied as never before. For students, technology has also offered education through interactive games, engaging films, and tutorial videos. Similarly, social media outlets like Foreign Students and Interpals now provide ways for young people to meet fellow students from all over the world, gaining first-hand knowledge and friendships through discussion. Modern research has proven that active, unique learning, available through technology, is amazingly effective.

Similarly, the benefits of using the Internet and social media may likewise be seen from a humanitarian viewpoint as young people are frequently urged to 'make their voices heard' and 'make the world a better place'. For example, the program Students Helping Students uses social media to connect students that are in need to those who can help. Whether it be offering tutoring or helping low-income schools attain materials, young people can use the Internet to address their community's needs. In that same respect, minors can also use social media and the Internet to learn about more global needs. For instance, the group S.H.O.W. (Students Helping Our World) is a small, school-led group that children can learn about and aid with their parents through Facebook and Twitter. The organization locates young people in need around the world and gives them a voice to be heard. Without the Internet or social media, young people might feel left in the dark to others' struggles. In this way, technology acts as an invitation to truly help.

Although the benefits of the Internet and social media to education and humanitarianism are clear, some critics may fear that access to technology could put minors in contact with strangers or inappropriate content. However, online research and social media sites in educational

Answers to Practice Sections Index      *Felimanuel Series* Emmanuel Gbireh, 2012 It is chiefly through books that we enjoy  
intercourse with superior minds In the best books great men talk to us give us their most precious thoughts and pour their  
souls into ours God be thanked for books They are the voices of the distant and the dead and make us heirs of the spiritual  
life of past ages Books are true levelers They give to all who will faithfully use them the spiritual presence of the best and  
greatest of our race William Ellery Channing Some of the things you will discover in Felimanuel Series The Magical Secret to  
Success in English Language Essay Writing for Junior and Senior High Schools Volume 1 With Bonus Success Secrets The  
book is comprehensively logically and coherently written and the language used is also easy to understand hence little or no  
further explanation is needed The book teaches how to choose examination questions and answer them without sweat  
Sample outlines plans and sample essays have been written to guide pupils and students The bonus success secrets will help  
pupils and students to pass in all seemingly difficult subjects like mathematics and science The bonus success secrets will  
also guide pupils and students towards the attainment of greater success in life The book has been designed in such a way  
that it can be used for examination purposes and for other practical uses in the day to day life of whoever uses it faithfully In  
writing this book on English Language essay writing I decided to move away from the traditional way of some authors  
flooding their English Language essay writing books with so many sample essays based on my experiences as an English  
teacher some years back Many pupils students have the habit of memorizing written essays found in books and reproduce  
them during examinations class exercises or when given project home work when they see that the question being asked is  
similar to the answered one they came across I hope the experts in the educational sector will agree with me that this does  
not augur well for the proper development of the child because he she would not have the opportunity to think and plan on  
his her own before writing a script with originality I stand to be corrected if I am mistaken It is in line with this that I have  
given only single sample essays per essay topic treated with more suggested outlines plans Most people often fail to plan  
their lives and this usually have disastrous effects on them Also in writing examination most candidates fail to plan their  
essays before answering selected questions As the old adage says If you fail to plan you plan to fail It is based on the above  
that in writing this book I dedicated the first chapter to the basics of essay writing Below is an excerpt of chapter one of the  
book After high lighting on the basics of essay writing I went ahead to discuss what paragraphs are and how they can be  
used in our daily writings This is followed by the use of punctuation marks Here again I have given a comprehensive write up  
as to how punctuation marks can be used to enrich our written works Other topics covered in the book are writing of  
narrative essays descriptive essays friendly letters semi formal letters summary writing argumentative essays speeches and  
talks report writing articles for publication expository essays and advertisement After a comprehensive logical and coherent  
treatment of each topic I followed up with sample questions outlines plans and essays These are only to serve as a guide to

users of the book I will like to take this opportunity to entreat teachers to encourage pupils students whom they teach to learn how to write an outline plan and to use it when answering essay related questions not only with English language but with all other subjects that they deem it fit to apply Some people may not see the usefulness of the outline plan but it helps the pupil stude
