**American Creationism, Creation Science, and Intelligent Design in the Evangelical Market** Benjamin L. Huskinson, 2020-08-19 In this compelling and thoroughly researched book Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism so too there is broad diversity among creationists His work on the Intelligent Design movement is superb and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism This is a very fine book Randall Balmer Author of *Evangelicalism in America* and writer host of *In the Beginning The Creationist Controversy* Benjamin Huskinson's study of American creationism will be an eye opener for those who sit on the opposite side of the evolution debate He shows that far from being a unified assault on Darwinism the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community Peter Bowler Author of *Monkey Trials and Gorilla Sermons Evolution and Christianity from Darwin to Intelligent Design* A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory Huskinson offers a smart analysis of religious anti evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate A must read for science communicators Philippa Levine Walter Prescott Webb Chair in History and Ideas University of Texas at Austin USA This book explores the cultural history of anti evolution efforts in the United States from 1960 to the present refuting several popular narratives about creation science in evangelical America Separating theological terms like creationism from cultural movements such as creation science and intelligent design in an evangelical marketplace of ideas it contests assumptions that evangelical movements against evolution are homogeneous and it argues that intelligent design is not an off shoot of the creation science movement It demonstrates that the rationale of creationist groups is relational as well as ideological showing that the social function of American creationism which is to establish the boundaries of orthodox religion is key to understanding the competing strategies of creation science organisations

*Red Dynamite* Carl R. Weinberg, 2021-10-15 In *Red Dynamite* Carl R Weinberg argues that creationism s tenacious hold on American public life depended on culture war politics inextricably embedded in religion Many Christian conservatives were convinced that evolutionary thought promoted immoral and even bestial social sexual and political behavior The fruits of subscribing to Darwinism were in their minds a dangerous

rearrangement of God given standards and the unsettling of traditional hierarchies of power Despite claiming to focus exclusively on science and religion creationists were practicing politics Their anticommunist campaign often infused with conspiracy theory gained power from the fact that the Marxist founders the early Bolshevik leaders and their American allies were staunch evolutionists Using the Scopes Monkey Trial as a starting point Red Dynamite traces the politically explosive union of Darwinism and communism over the next century Across those years social evolution was the primary target of creationists and their ideas have consequences strategy instilled fear that shaped the contours of America s culture wars By taking the anticommunist arguments of creationists seriously Weinberg reveals a neglected dimension of antievolutionism and illuminates a source of the creationist movement s continuing strength Thanks to generous funding from Indiana University and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open) and other repositories

**One Race One Blood (Revised & Updated)** Ken Ham,2010-11-01 It is a rarely discussed fact of history that the premise of Darwinian evolution has been deeply rooted in the worst racist ideology since its inception This significant book gives a thorough account of the effects of evolution on the history of the United States including slavery and the Civil rights movement and goes beyond to show the global harvest of death and tragedy that still finds its roots in Darwin s destructive writings The tragic legacy of Darwins controversial speculations on evolution has led to terrible consequences taken to the deadliest extremes One Race One Blood reveals the origins of these horrors as well as the truth revealed in Scripture that God created only one race You will discover Nazi Germany used evolutionary concepts to justify the extermination of unfit people groups such as Jews Gypsies and Slavs The origins of people groups the genetics of skin color and the biblical truths on interracial marriage Eye opening discussion on racism and its roots in the hearts and minds of millions still today Within these compelling pages Dr A Charles Ware president of Crossroads Bible College and Ken Ham president of Answers in Genesis examine the historical roots of racism that have permeated evolutionary thought and the Bible s response to this disturbing issue This is a crucial and timely study that profoundly addresses the Christian worldview regarding race from a compassionate and uniquely compelling perspective

drawn from Genesis as well as exhibits that imagine the Bible's account of life before the flood Back cover The Creationist Debate, Second Edition Arthur McCalla,2013-08-29 Whereas scholarly study of Creationism usually places it in the context of religion and the history or philosophy of science The Creationist Debate here revised and completely updated in its second edition has been written in the conviction that creationism is ultimately about the status of the Bible in the modern world Creationism as a modern ideology exists in order to defend the authority of the Bible as a repository of transhistorical truth from the challenges of any and all historical sciences It belongs to and is inseparable from Protestant Fundamentalists desire to resubject the modern world to the authority of the inerrant Bible Intelligent Design creationism to the extent that it distinguishes itself from reactionary biblicism is a program advocating a supernaturalist providentialist understanding of the world Accordingly The Creationist Debate situates Creationism and Intelligent Design in relation to the rise from the early modern period onwards of historical thinking in various scientific and scholarly disciplines including theories of the earth chronology civil history geology biblical criticism paleontology evolutionary biology and anthropology in their complex relationship to the status of the Bible as an historical authority It argues that the debate over Creationism is at bottom a debate over how to interpret the biblical text rather than over how to interpret the world A Christian Student'S Guide to Truth in Science Stanley J. O'Briant,2015-03-13 This book exposes the attempt to teach atheistic evolution to students often ridiculing their faith in God The classrooms in our schools have become the battlegrounds for the minds of our children Since the introduction of evolution by Charles Darwin there has been a growing list of atheist professors who vigorously fight any religion The classrooms of America should not be the battlegrounds of any religion but evolution is a religion It has no place in the classroom since it does not offer any information that improves the teaching of any science class except evolution itself There is no proof of evolution only assertions innuendos credulity belief without proof and suppositions Fully one third of all geology textbooks deal with evolution which is founded only opinion and undocumented assertions Therefore it should be removed from all textbooks Dr David Menton who taught medicine at the Washington School of Medicine in St Louis Missouri for twenty five years stated that he never once needed to reference evolution in any medical class A coalition of organizations such as the National Academy of Sciences whose members are 93% atheist or agnostic and the National Center for Science and Education control most of the government grants intended for schools use fully support the atheism of evolution and they attack any criticism of evolution **Media and Science-Religion Conflict** Thomas Aechtner,2020-01-22 This book examines why the religion science skirmishes known as the Evolution Wars have persisted into the 21st century It does so by considering the influences of mass media in relation to decision making research and the Elaboration Likelihood Model one of the most authoritative persuasion theories The book's analysis concentrates on the expression of cues or cognitive mental shortcuts in Darwin sceptic and counter creationist broadcasts A multiyear collection of media generated by the most prominent Darwin sceptic organizations is surveyed along with rival publications

from supporters of evolutionary theory described as the pro evolutionists The analysed materials include works produced by Young Earth Creationist and Intelligent Design media makers New Atheist pacesetters as well as both agnostic and religious supporters of evolution These cues are shown to function as subtle but effective means of shaping public opinion including appeals to expertise claims that ideas are being censored and the tactical use of statistics and technical jargon Contending that persuasive mass media is a decisive component of science religion controversies this book will be of keen interest to scholars of Religion Science and Religion interactions as well as researchers of Media and Communication Studies more generally

*Lie: Evolution, The (25th Anniversary Edition)* Ken Ham, 1987-07-01 The Bible prophetically warns that in the last days false teachers will introduce destructive lies among the people Their purpose is to bring God's truth into disrepute and to exploit believers by telling them made up and imagined stories see 2 Pet 2:1-3 Such a lie is among us that lie is evolution Today many laypeople ministers and Christian educators are powerless in their presentation of the gospel They have rejected Genesis the foundation of biblical doctrine They have believed the modern origins myth evolution If you believe that Genesis is not important to presenting the Gospel This book is for you If you believe that what you think about Genesis does not affect you personally This book is for you If you believe that evolution can be made to fit the Bible This book is for you If you are a witnessing Christian seeking to bring the gospel to this spiritually drifting world This book is for you

Evolution Vs. Creationism Eugenie C. Scott, 2009-08-03 Presents the scientific evidence for evolution and reasons why it should be taught in schools provides various religious points of view and offers insight to the evolution creationism controversy

Feeling the Future at Christian End-Time Performances Jill C. Stevenson, 2022-02-01 The End is always near The Apocalypse has sparked imaginations for millennia while in more recent times highly publicized predictions have thrust End Time theology briefly into the spotlight In the 21st century fictional depictions of various apocalyptic scenarios are found in an endless stream of films TV shows and novels while real world media coverage of global issues including climate change and the migrant crisis often features an apocalyptic tone Feeling the Future at Christian End Time Performances explores this prevalent human desire to envision the End by analyzing how various live End Time performances allow people to live in and through future time The book's main focus is contemporary Christian End Time performances and how they theatrically construct encounters with future time not just images or ideas of a future but viscerally and immediately real experiences of future time Author Jill Stevenson's examples are Hell Houses and Judgement Houses Rapture House a similarly styled walk through drama in North Carolina Hell's Gates an outdoor reality drama in Dawsonville Georgia Ark Encounter a full size recreation of Noah's Ark and Tribulation Trail an immersive thirteen scene drama ministry based on the Book of Revelation The book's coda considers similarities between these Christian performances and secular survivalist prepper events especially with respect to constructions of and language about time In doing so the author situates these performances within a larger tradition that challenges traditional secular sacred distinctions and illuminates how the End Times has been

employed in our current social and political moment
