organizing experience recognizable alongside painting dance theater and literature The final chapter by Marvin Labbate looks close at the training hall Dressed in a uniform students line up in a ready position come to attention sit meditate and bow This ritualized pattern is performed at the beginning during and at the end of each class but what does it mean In this chapter each element of the ritualized pattern will be discussed to provide a clear understanding of its original intent If you are interested in Japanese martial traditions you will find much in these eight chapters that clarify why the arts are taught according to a longstanding tradition and also why there have been evolutionary changes in the instructional methods There is sound logic for the old traditions as well as for the changes The scholarly research presented in this anthology will improve a teacher s way of instructing and help a student understand what to expect out of his or her studies *Re-theorizing Discipline in Education* Zsuzsa Millei (Ed), Tom G. Griffiths, Robert John Parkes, 2010 understandings that can make a difference in students lives **Common Ground in First Language and Intercultural Interaction** Istvan

Kecskes, 2023-03-06 In recent years the traditional approach to common ground as a body of information shared between participants of a communicative process has been challenged Taking into account not only L1 but also intercultural interactions and attempting to bring together the traditional view with the egocentrism based view of cognitive psychologists it has been argued that construction of common ground is a dynamic emergent process It is the convergence of the mental representation of shared knowledge that we activate assumed mutual knowledge that we seek and rapport as well as knowledge that we co construct in the communicative process This dynamic understanding of common ground has been applied in many research projects addressing both L1 and intercultural interactions in recent years As a result several new elements aspects and interpretations of common ground have been identified Some researchers came to view common ground as one component in a complex contextual information structure Others analyzing intercultural interactions pointed out the dynamism of the interplay of core common ground and emergent common ground The book brings together researchers from different angles of pragmatics and communication to examine i what adjustments to the notion of common ground based on L1 communication should be made in the light of research in intercultural communication ii what the relationship is between context situation and common ground and iii how relevant knowledge and content get selected for inclusion into core and emergent common ground *Collaborative Embodied Performance* Kath Bicknell, John

Martial Arts as Embodied Knowledge D. S. Farrer, John Whalen-Bridge, 2011-12-01 This landmark work provides a wide ranging scholarly consideration of the traditional Asian martial arts Most of the contributors to the volume are practitioners of the martial arts and all are keenly aware that these traditions now exist in a transnational context The book's cutting edge research includes ethnography and approaches from film literature performance and theater studies Three central aspects emerge from this book martial arts as embodied fantasy as a culturally embedded form of self cultivation and as a continuous process of identity formation Contributors explore several popular and highbrow cultural considerations including the career of Bruce Lee Chinese wuxia films and Don DeLillo's novel Running Dog Ethnographies explored describe how the social body trains in martial arts and how martial arts are constructed in transnational training Ultimately this academic study of martial arts offers a focal point for new understandings of cultural and social beliefs and of practice and agency
