The Discipline of Organizing Robert J. Glushko, 2013-05-17 A framework for the theory and practice of organizing that integrates the concepts and methods of information organization and information retrieval Organizing is such a common activity that we often do it without thinking much about it In our daily lives we organize physical things books on shelves cutlery in kitchen drawers and digital things Web pages MP3 files scientific datasets Millions of people create and browse Web sites blog tag tweet and upload and download content of all media types without thinking I m organizing now or I m retrieving now This book offers a framework for the theory and practice of organizing that integrates information organization IO and information retrieval IR bridging the disciplinary chasms between Library and Information Science and Computer Science each of which views and teaches IO and IR as separate topics and in substantially different ways It introduces the unifying concept of an Organizing System an intentionally arranged collection of resources and the interactions they support and then explains the key concepts and challenges in the design and deployment of Organizing Systems in many domains including libraries museums business information systems personal information management and social computing Intended for classroom use or as a professional reference the book covers the activities common to all organizing systems identifying resources to be organized organizing resources by describing and classifying them designing resource based interactions and maintaining resources and organization over time The book is extensively annotated with disciplinary specific notes to ground it with relevant concepts and references of library science computing cognitive science law and business

The Discipline of Organizing: Professional Edition Robert J. Glushko, 2016-08-05 We organize things We organize information information about things and information about information Organizing is a fundamental issue in many professional fields but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions The Discipline of Organizing synthesizes insights from library science information science computer science cognitive science systems analysis business and other disciplines to create an Organizing System for understanding organizing This framework is robust and forward

looking enabling effective sharing of insights and design patterns between disciplines that weren't possible before The 4th edition of this award winning and widely adopted text adds content to bridge between the foundations of organizing systems and the new statistical and computational techniques of data science because at its core data science is about how resources are described and organized The 4th edition reframes descriptive statistics as organizing techniques expands the treatment of classification to include computational methods and incorporates many new examples of data driven resource selection organization maintenance and personalization The Professional edition remains the definitive source for advanced students and practitioners who require comprehensive and pinpoint connections to the classic and contemporary literature about organizing Dozens of new citations and endnotes for the new data science material bring to 12 the number of distinct disciplinary perspectives identified in the book
