(26 marks)

1. Read the following passage carefully:

(10 Marks)

- (1) The digital age has irrevocably transformed the way we consume information. Gone are the days when newspapers and television reigned supreme as the primary sources of news. Today, the internet, with its myriad platforms and social media channels, has become the dominant force in shaping public discourse. This shift has brought about both unprecedented opportunities and significant challenges.
- (2) One of the most significant advantages of the digital age is the democratization of information. Anyone with an internet connection can access a vast repository of knowledge, breaking down geographical barriers and empowering individuals to become informed citizens. Citizen journalism has also emerged, allowing ordinary people to report on events in real-time, often providing alternative perspectives to mainstream media.
- (3) However, this democratization has also led to the proliferation of misinformation and "fake news." The ease with which false or misleading information can spread online poses a serious threat to informed decision-making and can have far-reaching consequences. The lack of editorial oversight on many online platforms makes it difficult to distinguish credible sources from unreliable ones.
- (4) Furthermore, the digital age has fostered the creation of echo chambers, where individuals are primarily exposed to information that confirms their existing beliefs. This can lead to increased polarization and a decline in civil discourse, as people become less willing to engage with opposing viewpoints. Algorithms used by social media platforms often reinforce this phenomenon by curating content based on user preferences, further limiting exposure to diverse perspectives.
- (5) Another challenge is the erosion of privacy. The vast amount of data collected by online platforms raises concerns about surveillance and the potential misuse of personal information. This data can be used to target individuals with tailored advertising or even to manipulate their opinions.
- (6) In conclusion, the digital age presents a complex paradox. While it offers unparalleled access to information and empowers individuals in many ways, it also poses significant challenges related to misinformation, polarization, and privacy. Navigating this complex landscape requires critical thinking skills, media literacy, and a commitment to responsible online behavior.
