Smarter Balanced Preliminary Performance Levels Northwest Evaluation Association, 2015 Recently the Smarter Balanced Assessment Consortium Smarter Balanced released a document that established initial performance levels and the associated threshold scale scores for the Smarter Balanced assessment The report included estimated percentages of students expected to perform at each of the four performance levels reported by grade and test subject e g English Language Arts or Mathematics based on preliminary field testing of the Smarter Balanced assessment conducted during the spring of 2014 These threshold scale scores and expected percentages represent a preliminary attempt at standard setting and Smarter Balanced may revise them after the spring 2015 testing term Nevertheless they represent the best information currently available about the cut scores that will be used during the spring 2015 testing term of the Smarter Balanced test Using the information provided within the Smarter Balanced report about the percentages of students expected to perform at each level Northwest Evaluation Association NWEA conducted a series of analyses to examine what Measures of Academic Progress MAP interim assessment scores might be associated with these performance level categories This was not an empirical study in the manner of our normal scale linking studies because the Smarter Balanced assessment has not yet been fully implemented NWEA intends to work with its partner school districts to conduct such a study examining the relationship between MAP performance and Smarter Balanced performance for individual students once Smarter Balanced has been fully implemented within NWEA partner districts NWEA analyses focused on the percentages of students expected to perform within each of the Smarter Balanced performance levels NWEA compared these percentages to our own nationally representative normative distributions in order to estimate the MAP scores that would produce similar percentages of students as those expected to fall within the Smarter Balanced performance level categories The approach taken here is quite similar to the approach used in many prior linking studies and can provide highly accurate estimates of cut scores Links used in this document are contained in the appendix

NWEA FAQ Northwest Evaluation Association, 2015 Northwest Evaluation Association NWEA conducts norming studies every several years to provide the best and most up to date information we can about student achievement and growth to better support educational decision making It is an important part of our commitment to our partners The most recent NWEA norms were released in July 2015 Just as we expect student performance to change with time norms of student performance will change correspondingly For 2015 several factors may have influenced how the US school age population performed on Measures of Academic Progress MAP assessments of language usage mathematics and reading over the 2011 12 2012 13 and 2013 14 school years Prominent among these possible factors are the introduction of Common Core instruction and Common Core versions of MAP But as with all empirical studies changes in scope and data necessitated changes in statistical design and analyses The methodological improvements introduced in the 2015 norms have

resulted in a set of norms that are more representative of the US school age population than previous NWEA norms. Methodological changes involved differences in the way post stratification weights were developed and the way growth was modeled. Details of these changes are addressed more thoroughly in the 2015 Norms Study. As a result of the improved methodology, partners can expect some differences from previous norms as explained below.

[NWEA Map Test Preparation - Grade 3 Reading](#) James W Alexander, 2024. The NWEA MAP Measures of Academic Progress test is an adaptive assessment that is designed to measure student growth and progress in a variety of subject areas. The test is taken by millions of students across the United States and is widely used by educators to help inform instruction and measure student outcomes. The NWEA MAP test is administered online and provides immediate feedback on student performance, allowing teachers to adjust their teaching strategies and provide targeted support to individual students. Effective preparation for the MAP Test involves a combination of understanding the test format, mastering content knowledge, and developing test-taking strategies. This test prep book is designed to provide students with comprehensive guidance on each content area, offering targeted instruction and practice questions to build confidence and ensure success. Additionally, the book includes test-taking tips and strategies to help students approach the test with a calm and focused mindset. By working through this book and dedicating time to consistent practice, students will be well equipped to excel on the MAP Test and achieve their academic goals. This book focuses on grade 3 reading; however, it is suggested that students look beyond their grade expectations in order to excel in the test. Also note that English in the MAP test is tested over 2 areas: reading and language. It is recommended that students practice across both areas in order to maximize results.
