Main Idea with Nonfiction Text

#1

Although many people think turtles and tortoises are the same animal, they have quite a few differences. One key difference is that tortoises live most of their life on land, but turtles spend a lot of time in water. For this reason, turtles also have more webbed feet to help them swim, and tortoises have more club-like legs and feet. Turtles also have thinner shells than tortoises, which also helps them swim.

Main Idea with Nonfiction Text

#4

The piano was invented in 1709. The inventor named the instrument, "gravicembalo col piano e forte." This name translates to "soft and loud keyboard instrument." The piano was a major breakthrough in music, because it could be played quietly and loudly. Other keyboard instruments, such as the harpsichord, could not do this.
