construction The idea of intercultural mirrors is applied throughout all chapters as an instrument of analysis an heuristic tool drawn from philosophy to provide a focus for the analysis of real life experiences Plato noted that one could see one s own reflection in the pupil of another s eye and suggested that the mirror image provided in the eye of the other person was an essential contributor to self knowledge Taking this as a cue the contributors of this book have structured their writings around the idea that the view of us held by other people provides an essential key to one s own self understanding
