Dewey D. White,2011-12-27 Venture into the blackness of space with Dewey D Whites well wrought *The Deep Wide and Dark*
The science is nothing short of sorcery as an extra terrestrial humanoid named John Jay Corsey gives mankind a dimensional
boost from Einsteins quantum theory for the love of a twenty year old stripper With science heretofore unknown to humans
but which was found to be related to the alien spacecraft that crash landed near Roswell New Mexico Corsey becomes the
center of a massive project to build the first faster than light starship to take flight into universa incognita searching for two
unearthly elements but quickly more than rocks are found by the newly minted Space Marine Corps Corsey found mankind
specifically the U S government unprepared but willing to build the machine They jumped right in to the project with the
verve and gusto typical of modern man cobbling together human and extra terrestrial science to make it a shining reality On
a fenced in 200 sq mile swath of Arizona New Mexico desert Sol Base One is built The nascent masters of the deep wide and
dark universal empyrean the Space Marines Corps recruits the best minds and bodies to man the Terrain Explorer the first
starship in human history The rush to build it becomes a race as world politics views it as an unwise decision and prepares to
stymie the ships launch after the Space Marines crafty commandant refuses to reveals the program and its intentions The
next decision made is to launch the mission 425 men on board the Terrain Explorer before the U N could send in inspection
teams And thus the fate of humanitys first venture into the stars is sealed Join Capt Jackson Edison Jed Devlon and the crew
of the Terrain Explorer in what promises to be a thrilling masterful exploration of the possibilities of time and space Will they
land on earth like worlds such as humanity knows therefore solidifying the fact of infinite replication in the universe Who
amongst the extra terrestrial races will they meet and who will be their friend or enemy How will they survive The
permutations grip readers with excitement The writing is riveting in detail and shines with crystal clear believability The
future is at stake **U.S. Tax Guide for Aliens** ,1993 **Endless Earth** Vorzsak Milan, What is the purpose of evolution
Why is velocity in the Universe limited to the speed of light She is an elf from before the evolution of mankind plunged into
the year 2456 She claims to be the one who aided Father Earth in the design of all species of life on Earth But her Parent has
now sent her to the time of the ending of the world which she swears to prevent In her original life before the Ice Age she
struggles with Black the leader of a tribe of primitive Homo sapiens She despises him for his rough nature but she eventually
understands that it is her duty to get him started on the bumpy road to evolution In her present the intelligent races of the
galaxy are pooling knowledge through the Archives a galactic network of alien transmissions to break the lightspeed barrier
and finally open up the galaxy But what is needed to make the Earth endless This novel is a unique fantastic theory on the
history of evolution based on hard historic facts blended with fun fantasy It also probes the future possibilities of mankind as
well as the laws of physics that govern the Universe which humankind needs to see as a challenge in order to conquer the
stars It is a standalone story but also the first part of a trilogy whose next volumes will also be published in the near future

The second volume *Endless Mars* details the struggles of a long ago Martian race to escape their dying planet while the third instalment entitled *Endless Space* rounds up the story of all the intelligent races of the galaxy **The Master Series LSAT.**,2005
