UCLA teacher education program Martin Lipton is an education writer and consultant and has taught in public schools for 31 years Lauren Anderson and Jamy Stillman are former public school teachers now working as teacher educators This unique comprehensive foundational text considers the values and politics that pervade the U S education system explains the roots of conventional thinking about schooling and teaching asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity and presents powerful examples of real teachers working for equity and justice Taking the position that a hopeful democratic future depends on ensuring that all students learn the text pays particular attention to inequalities associated with race social class language gender and other social categories and explores teachers role in addressing them The text provides a research based and practical treatment of essential topics and it situates those topics in relation to democratic values issues of diversity and cognitive sociocultural and constructivist perspectives on learning The text shows how knowledge of education foundations and history can help teachers understand the organization of today s schools the content of contemporary curriculum and the methods of modern teaching It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools vouchers standards testing and bilingual education to name just a few Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice Thus the authors address head on tensions between principles of democratic schooling and competition for always scarce high quality opportunities Woven through the text are the voices of a diverse group of teachers who share their analyses and personal anecdotes concerning what teaching to change the world means and involves [Click Here for Book Website](#) Pedagogical Features Digging Deeper sections referenced at the end of each chapter and featured online include supplementary readings and resources from scholars and practitioners who are addressing issues raised in the text Instructor s Manual offers insights about how to teach course content in ways that are consistent with cognitive and sociocultural learning theories culturally diverse pedagogy and authentic assessment New to this Edition

Artificial Intelligence in Education Rosemary Luckin, Kenneth R. Koedinger, Jim E. Greer, 2007 The nature of technology has changed since Artificial Intelligence in Education AIED was conceptualized as a research community and Interactive Learning Environments were initially developed

Artificial Intelligence in Education Ulrich Hoppe, Maria Feliza Verdejo, Judy Kay, 2003 This work reports on research into intelligent systems models and architectures for educational computing applications It covers a wide range of advanced information and communication and computational methods applied to education and training

Handbook of the Sociology of Education in the 21st Century Barbara Schneider, 2018-10-10 This handbook unifies access and opportunity two key concepts of sociology of education throughout its 25 chapters It explores today s populations rarely noticed such as undocumented students first generation college students and LGBTQs and emphasizing the intersectionality of gender race ethnicity and social class Sociologists often center their work on the sources and consequences of inequality

This handbook while reviewing many of these explanations takes a different approach concentrating instead on what needs to be accomplished to reduce inequality A special section is devoted to new methodological work for studying social systems including network analyses and school and teacher effects Additionally the book explores the changing landscape of higher education institutions their respective populations and how labor market opportunities are enhanced or impeded by differing postsecondary education pathways Written by leading sociologists and rising stars in the field each of the chapters is embedded in theory but contemporary and futuristic in its implications This Handbook serves as a blueprint for identifying new work for sociologists of education and other scholars and policymakers trying to understand many of the problems of inequality in education and what is needed to address them
