*Feminist Reconfigurings of Alien Encounters* Nina Lykke, Katja Aglert, Line Henriksen, 2024-02-05. *Feminist Reconfigurings of Alien Encounters* reclaims the notion of alien encounters together with strange but queerly loved companions: Vulgar slugs, diatoms, micro algae, and familiars, spirit guides of witches. The book's three human co-authors ask what would it take to establish more than human bio and geo-egalitarian co-existence on a planet in trouble. This playfully crafted mixed-genre book is informed by feminist posthumanisms and co-created with a spectral community of more than humans who are respectfully summoned to contribute with their perspectives. In focus of the entangled artistic/philosophical/poetic investigations are questions of ethics, aesthetics, and methodologies to co-exist, response-ably rather than based on modern human beliefs in exceptionalism and entitlement to sovereignty, control, and conquest of more than human worlds. *Feminist Reconfigurings of Alien Encounters* is intended for broad global audiences of researchers, teachers, professionals, NGOs, politicians, students from undergraduate to postgraduate levels, artists, writers, activists, and activists who are interested in entangled artistic/poetic/philosophical modes of understanding the world as well as in ecology, new feminist materialism, critical posthumanism, and questions about radically rethinking and reimagining human/more-than-human relations on Earth.

*UFOs, Chemtrails, and Aliens* Donald R. Prothero, Timothy D. Callahan, 2017-08-02. A wide-ranging survey offers entertainment as well as wisdom for everyone who's ever wondered what's behind so many conspiracy theories and paranormal phenomena. Publishers Weekly: UFOs, Aliens, Strange crop circles, Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In *UFOs, Chemtrails, and Aliens*, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics, including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence.

used to determine whether UFOs are actual alien spacecraft Finally they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings While their approach is firmly based in science Prothero and Callahan also share their personal experiences of Area 51 Roswell and other legendary sites creating a narrative that is sure to engross both skeptics and believers      Otherworldly Encounters Nomar Slevik,2018-07-08 UFOs Unknown Entities and High Strangeness in the American Northeast Explore the realm of the unknown with more than three dozen true stories of unexplained phenomena Join ufologist and paranormal researcher Nomar Slevik as he shares fascinating tales of sightings and abductions centered in the Northeast s UFO hotspots Discover the truth about lights in the sky and aliens on the ground from firsthand witnesses and experiencers Otherworldly Encounters includes investigations of UFOs crop circles alien abductions monsters extraterrestrial biological entities balls of light and more With reports dating back to the 1800s this is an in depth guide to phenomena that have puzzled and frightened witnesses for generations Using the best technological equipment and immersive investigative techniques Nomar Slevik has collected shocking evidence that is truly out of this world      **The Ultimate Collection on UFOs** compiled from Wikipedia entries and published by by Dr Googelberg,2012-06-11 Lots of information on sightings and everything from a scientific angle about them Compiled from Wikipediapages and published by DrGoogelberg      **The Illumination Code** Kim Chestney,2024-04-02 Kim Chestney s codes bring you closer to the comprehension of a reality that was wholly hidden prior to the quantum discoveries Ervin L szl author of Science and the Akashic Field Intuition the extraordinary ability to access information from the quantum realms is fast becoming humanity s most advanced form of knowledge acquisition The Illumination Code presents seven keys to unlock your inner dimension so you can access expanded states of awareness that exist beyond the limits of the rational mind Kim Chestney reveals the deeply personal nature of the universe while offering a new way to know the unknowable and experience the seemingly impossible As you venture inward on this step by step journey you will gain profound insights and discover the true power of your own inner wisdom      *Death by Astonishment* Andrew R.
