Rosenberg, 2007-08-02 Essays exploring the importance of archives as artifacts of culture **Skylight** José Saramago, 2014 Published for the very first time an early novel by Nobel Laureate and literary master Jos Saramago that tells the intertwined stories of the residents of a faded Lisbon apartment building in the late 1940s *The Reading Room* Barbara Probst Solomon, Julie Berman, 2000-06 The Reading room features stories sections of novels essays and poetry by well known writers and new writers just emerging *Thinking Allegory Otherwise* Brenda Machosky, 2010 *Thinking Allegory Otherwise* is a unique collection of essays by allegory specialists and other scholars who engage allegory in exciting new ways Not limited to an examination of literary texts and works of art the essays focus on a wide range of topics including architecture philosophy theater science and law Indeed all language is allegorical This collection proves the truth of this statement but more importantly it shows the consequences of it To think allegory otherwise is to think otherwise forcing us to rethink not only the idea of allegory itself but also the law and its execution the literality offigurative abstraction and the figurations upon which even hard science depends Book Jacket

**Figures of Radical Absence** Alexandra-Ecaterina Irimia, 2023-10-04 What is there to see in invisible artworks empty books or blank screens How do formal absences generate meaning Constructing an argument by way of montage this book is an annotated inventory of textual visual and conceptual figures of absence Spanning different media it reveals a creative

tradition that uses absence not as a negative aesthetic category but as a productive state of radical indeterminacy with its own politics and poetics Although post structuralism highlighted the importance of what is offstage lost forgotten hidden or discarded silent or silenced the poetics and politics of absence much like its ethics and aesthetics have rarely been discussed across media and disciplines This book proposes the concept of radical absence to describe a certain tradition of resistance to ontology predication and representation contesting their reliance on a metaphysics of presence Apophatic speech empty signifiers and figural voids are some of the figures through which radical absence becomes apparent with unprecedented intensity in twentieth century theory literature film and the arts Phantasmatic and outrageous such figures play with creative strategies of dematerialization irony and other forms of discursive undoing Therefore absence becomes more than a simple theme it reflects back on the medium and the meaning making conditions under which it operates Elusive and imprecise as an object of study absence requires more subtle and flexible epistemological frameworks than have been available to date This monograph proposes we think of it not only as a counter concept for presence but also and perhaps more productively as infinite spacing deferral fragmentation and displacement

**Political Categories** Michael Marder,2019-03-12 Western philosophy has been dominated by the concept or the idea the belief that there is one sovereign notion or singular principle that can make reality explicable and bring all that exists under its sway In modern politics this role is played by ideology Left right or center political schools of thought share a metaphysics of simplification We internalize a dominant largely unnoticeable framework oblivious to complex plural and occasionally conflicting or mutually contradictory explanations for what is the case In this groundbreaking work Michael Marder proposes a new methodology for political science and philosophy one which he terms categorial thinking In contrast to the concept no category alone can exhaust the meaning of anything categories are so many folds complications respectful of multiplicity Ranging from classical Aristotelian and Kantian philosophies to phenomenology and contemporary politics Marder s book offers readers a theoretical toolbox for the interpretation of political phenomena processes institutions and ideas His categorial apparatus encompasses political temporality and spatiality the revolutionary and conservative modalities of political actuality possibility and necessity quantitative and qualitative approaches to the study of political reality the meaning of political relations and various senses of political being Under this lens the political appears not as a singular concept but as a family of categories allowing room for new plural and often antagonistic ideas about the state the people sovereignty and power

*Seeing* José Saramago,2020-06-11 A strange protest triggers a descent into paranoia and chaos in this illuminating parable a sequel to the Nobel Prize winning author s *Blindness* Ursula K Le Guin The Guardian UK On election day in the capital it is raining so hard that no one has bothered to come out to vote The politicians are growing jittery Should they reschedule the elections for another day Around three o clock the rain finally stops Voters promptly rush to the polling stations as if they had been ordered to appear But when the ballots are counted more than 70 percent are blank In response to this mass act of rebellion a state of emergency is declared But are the authorities acting blindly The word evokes terrible memories of the plague of blindness that hit the city four years before and of the one woman who kept her sight Perhaps she is the one behind the blank ballots A police superintendent is put on the case What begins as a satire on governments and the dubious efficacy of the democratic system turns into something far more sinister As the story unfolds the humor is still tender but the tone darkens tension rises Ursula K Le Guin The Guardian UK
