HORACIO SALGÁN - TANGO COURSE Horacio Salgán, 2020-06-10 Writing this Tango Course is both an obligation and a great pleasure for me It is an obligation because I would like to contribute something of all the things that I owe in return as an appreciation of having been fortunate enough to educate myself in the Orchestras where I learned to play Tango The Orchestras were a crucible where the ideas of its members and or other creative musicians experimented played and came together to create playing styles rhythmic forms etc These contributions were what took the Tango little by little to such a high musical level Nowadays it is not at all easy to belong to an Orchestra considering the fact that so few can subsist This makes it more difficult for those who want to have careers in Tango music to acquire the vast knowledge necessary for playing and interpreting it Let us not forget that the Orchestras have always been the best schools for such an apprenticeship It is also a great pleasure to be able to transmit and share that what I have learned trying always not to leave anything out that is my real intention by relying on my memory which fortunately still helps me I never intended for my conclusions to be taken as the absolute truth nor wanted to win something over anyone in anything This course just shows my position and the ideas with which I have always worked We will deal here with the Tango in versions which in my understanding are genuine manifestations of itself I love the Tango because I love good music and I got into it to learn to play it not to change it If my versions and arrangements have something different about them it is only because this is my

language and I have expressed myself through it I will also talk about the incorporation of new contributions and changes as long as they are authentic within the genre The many streams of opinion may or may not coincide with what will be said in this course Considering the broadness of the theme and the flexibility which should govern artistic creation other concepts may prove constructive as well I sincerely hope that this course will be useful to someone Horacio Salg n **The**

Ecopoetics of Reenchantment Bénédicte Meillon,2022-11-07 Ecopoetics of Reenchantment Liminal Realism and Poetic Echoes of the Earth tackles the reenchantment process at work in a part of contemporary ecoliterature that is marked by the resurfacing of the song of the earth topos and of Gaia images Focusing on the postmodernist braiding of various indigenous and ecofeminist ontologies close readings of the animistic and totemic dimensions of the stories at hand lead to the theorizing of liminal realism a mode that shares much with magical realism but that is approached through an ecopoetic lens specifically working an interspecies kind of magic situating readers in between human and other than human worlds This book promotes a worldview based on relationships of reciprocity and symbiosis It restores our capacity for wonder together with our sensitive intelligence Liminal realism adopts a stance in between scientific mythical and poetic

worldviews as it calls attention to the soundscapes odorscapes feelscapes and landscapes of the world This monograph offers an original transdisciplinary and cross Atlantic take on ecopoetics as it straddles the two academic worlds and sparks a conversation between artworks theories and studies emerging from the English speaking world as well as from Francophone contexts Entangling the materiality of language back within the flesh of the world this book and the texts under study provide insight into the fundamentally sympoietic dimension of ecopoiesis
