Blueprint for a Revolution: Building Upon All of the New Testament - Volume One Reed K. Merino B.A. M. Div., 2021-07-23 What if for more than fifty years you worked hard to research the New Testament without denominational filters And then what if you were to organize that research by subject matter Well that is what I have done in these two volumes of *Blueprint for a Revolution Building Upon ALL of The New Testament* What follows is a catechism of apostolic true Christianity It is a body of teaching that flows out of taking all New Testament teachings in a grammatically natural and literal sense the way we instinctively read all serious literature Testimony from the earliest Christians is also presented demonstrating that what those earliest churches taught and lived out was typically identical to what you conclude when you take the New Testament doctrines commands and promises in that same sense In those many years of research I have never come upon a single church or book that provides a specific set of principles a k a exegetical method by which all Biblical passages are to be interpreted and that has then set about to consistently surrender to those principles in all the subjects that it covers My claim therefore is that this is the only such catechetical work that does just that The importance of this book does not lie mainly in the specific conclusions of any individual chapter and certainly not in any of my literary skills at presenting those conclusions It lies largely in the juxtaposition of teachings that are often thought to be in conflict with each other only because the traditions that hold to the beliefs in those chapters have been in conflict with each other It is my contention that what Jesus considered to be my church is what is taught within these chapters the church that is an incarnation of His kingdom of God
