★ IMPORTANT

Vehicle repairs related to safety recalls are critically important and must be performed properly in accordance with TSB procedures. Review this bulletin in its entirety prior to beginning any repair work.

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers must also perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

Access the "Vehicle Information" screen via WEBDCS to identify open recalls.

Description: Certain Hyundai vehicles equipped with 8-speed dual clutch transmissions (DCT) may encounter drivability symptoms, such as rough upshifts, hesitations, or lack of motive power, and/or certain Diagnostic Trouble Codes (DTC) such as P1C2D03. This bulletin provides information regarding a software update for the Transmission Control Unit (TCU) to revise the logic on the drivability conditions and "fail safe" driving capability. In cases where the DTC P1C2D03 is on, the transmission will need to be replaced.

Lemon-aid Used Cars and Minivans Louis-Philippe Edmonston, 2004 Intellectual Property, Competition Law and

Economics in Asia R. Ian McEwin, 2011-10-07 This book results from a conference held in Singapore in September 2009 that

brought together distinguished lawyers and economists to examine the differences and similarities in the intersection between intellectual property and competition laws in Asia. The prime focus was how best to balance these laws to improve economic welfare. Countries in Asia have different levels of development and experience with intellectual property and competition laws. Japan has the longest experience and now vigorously enforces both competition and intellectual property laws. Most other countries in Asia have only recently introduced intellectual property laws due to the Trade-Related Aspects of Intellectual Property Rights (TRIPS) Agreement and competition laws sometimes due to the World Bank International Monetary Fund or free trade agreements. It would be naïve to think that laws even if similar on the surface have the same goals or can be enforced similarly. Countries have differing degrees of acceptance of these laws, different economic circumstances and differing legal and political institutions. To set the scene, Judge Doug Ginsburg, Greg Sidak, David Teece and Bill Kovacic look at the intersection of intellectual property and competition laws in the United States. Next are country chapters on Asia, each jointly authored by a lawyer and an economist. The country chapters outline the institutional background to the intersection in each country, discuss the policy underpinnings theoretically as well as describing actual policy initiatives, analyse the case law in the area and make policy prescriptions *Product Safety & Liability Reporter*, 2004
