Page Number	DURING READING QUESTIONS	STUDENT RESPONSE
<b>Start Page 45:</b> "As winter drew on, Mollie became more and more troublesome."  <b>To Page 48:</b> "But of all their controversies, none was so bitter as the one that took place over the windmill."	A. Why do you think that Napoleon and Snowball always disagree?  B. Contrast the leadership style of each pig.	Napoleon does not want Snowball to lead Animal Farm and gain more popularity than himself.  Napoleon is a self-centered, ruthless dictator.  Snowball is happy, and he is more creative and more fluent.
<b>Start Page 48:</b> "In the long pasture, not far from the farm buildings..."  <b>To the end of Page 53:</b> "It was noticed that they wagged their tails..."	Contrast Napoleon and Snowball's perspectives on the windmill.  How do Napoleon's actions in this scene affect the other animals?	Snowball argues in favor of the windmill, which he is certain will eventually become a labor-saving device; Napoleon argues against it, saying that building the windmill will take time and effort away from the more important task of producing food.  <b>They don't agree with Napoleon.</b>
<b>Start Page 54:</b> "Napoleon, with the dogs following him..."  <b>To Page 58:</b>	Consider the changes Napoleon makes to how the farm will be run.  In your opinion, what is his likely motivation for the changes?	There will be no more Sunday Meetings. All decisions about the farm will be made by a committee of pigs presided over by Napoleon. The animals will now meet on Sundays to salute the flag, sing "Beasts of England," and receive their orders for the week.

Congress,2009      **Nourishment** Fred Provenza,2018 Reflections on feeding body and spirit in a world of change Animal scientists have long considered domestic livestock to be too dumb to know how to eat right but the lifetime research of animal behaviorist Fred Provenza and his colleagues has debunked this myth Their work shows that when given a choice of natural foods livestock have an

astoundingly refined palate nibbling through the day on as many as fifty kinds of grasses forbs and shrubs to meet their nutritional needs with remarkable precision In Nourishment Provenza presents his thesis of the wisdom body a wisdom that links flavor feedback relationships at a cellular level with biochemically rich foods to meet the body s nutritional and medicinal needs Provenza explores the fascinating complexity of these relationships as he raises and answers thought provoking questions about what we can learn from animals about nutritional wisdom What kinds of memories form the basis for how herbivores and humans recognize foods Can a body develop nutritional and medicinal memories in utero and early in life Do humans still possess the wisdom to select nourishing diets Or has that ability been hijacked by nutritional authorities Consumers eager for a quick fix have empowered the multibillion dollar a year supplement industry but is taking supplements and enriching and fortifying foods helping us or is it hurting us On a broader scale Provenza explores the relationships among facets of complex poorly understood ever changing ecological social and economic systems in light of an unpredictable future To what degree do we lose contact with life sustaining energies when the foods we eat come from anywhere but where we live To what degree do we lose the mythological relationship that links us physically and spiritually with Mother Earth who nurtures our lives Provenza s paradigm changing exploration of these questions has implications that could vastly improve our health through a simple change in the way we view our relationships with the plants and animals we eat Our health could be improved by eating biochemically rich foods and by creating cultures that know how to combine foods into meals that nourish and satiate Provenza contends the voices of authority disconnect most people from a personal search to discover the inner wisdom that can nourish body and spirit That journey means embracing wonder and uncertainty and avoiding illusions of stability and control as we dine on a planet in a universe bent on consuming itself *Pineapple Leaf Fibers* Mohammad Jawaid, Mohammad Asim, Paridah Md.
