Industrial & Mining Standard,1908 *Fundamentals of Turbomachines* Erik Dick,2015-03-09 This book explores the working principles of all kinds of turbomachines The same theoretical framework is used to analyse the different machine types Fundamentals are first presented and theoretical concepts are then elaborated for particular machine types starting with the simplest ones For each machine type the author strikes a balance between building basic understanding and exploring knowledge of practical aspects Readers are invited through challenging exercises to consider how the theory applies to particular cases and how it can be generalised The book is primarily meant as a course book It teaches fundamentals and explores applications It will appeal to senior undergraduate and graduate students in mechanical engineering and to professional engineers seeking to understand the operation of turbomachines Readers will gain a fundamental understanding of turbomachines They will also be able to make a reasoned choice of turbomachine for a particular application and to understand its operation Basic design of the simplest turbomachines as a centrifugal fan an axial steam turbine or a centrifugal pump is also possible using the topics covered in the book

The European Banking Regulation Handbook, Volume II Christos V. Gortsos,2025-09-01 In two volumes this handbook covers in a comprehensive internally balanced systematic and detailed way the field of European Union EU banking law and regulation The present Volume II builds on Volume I which offered a brief introduction to the theory of banking regulation a thorough analysis of international financial standards as well as a brief presentation of the gradual evolution and the sources of EU banking law and a precise analysis of the law making process and the institutional aspects governing this branch of EU economic law Volume II contains a detailed analysis of the substantive aspects of EU banking law starting with the EU rules governing the authorisation prudential regulation and supervision of credit institutions Part I and then moving to those governing crisis prevention and crisis management in the EU banking system including but not confined to the resolution of credit institutions Part II Of significant value is the well established blend between the EU law in force and its interpretation by EU Courts in their numerous judgments
