Nd Term Scheme Of Work 2014 2015:

Criminality at Work Alan Bogg, Jennifer Collins, Mark Freedland, Jonathan Herring, 2020-03-12 From the Master and Servant legislation to the Factories Acts of the 19th century the criminal law has always had a vital yet normatively complex role in the regulation of work relations Even in its earliest forms it operated both as a tool to repress collective organizations and enforce labour discipline while policing the worst excesses of industrial capitalism Recently governments have begun to rediscover criminal law as a regulatory tool in a diverse set of areas related to labour law modern slavery penalizing irregular migrants licensing regimes for labour market intermediaries wage theft supporting the enforcement of general labour standards new forms of hybrid preventive orders harassment at work and industrial protest This volume explores the political and regulatory dimensions of the new criminality at work from a wide range of disciplinary perspectives including labour law immigration law and health and safety regulations The volume provides an overview of the regulatory terrain of criminality at work exploring whether these different regulatory interventions represent politically legitimate uses of the criminal law The book also examines whether these recent interventions constitute a new pattern of criminalization that operates in preventive mode and is based upon character and risk based forms of culpability The volume concludes by reflecting upon the general themes of criminality at work comparatively from Australian Canadian and US perspectives *Criminality at Work* is a timely rich and ambitious piece of scholarship that examines the many intersections between criminal law and work relations from a historical and contemporary vantage point

Work and Livelihoods Susana Narotzky, Victoria Goddard, 2016-12-01 Winner of the Society for the Anthropology of Work book prize 2017 This volume presents a global range of ethnographic case studies to explore the ways in which in the context of the restructuring of industrial work the ongoing financial crisis and the surge in unemployment and precarious employment local and global actors engage with complex social processes and devise ideological political and economic responses to them It shows how the reorganization and re signification of work notably shifts in the perception and valorization of work affect domestic and community arrangements and shape the conditions of life of workers and their families

Children of Austerity Bea Cantillon, Yekaterina Chzhen, Sudhanshu Handa, Brian Nolan, 2017-04-07 The 2008 financial crisis triggered the worst global recession since the Great Depression Many OECD countries responded to the crisis by reducing social spending Through 11 diverse country case studies Belgium Germany Greece Hungary Ireland Italy Japan Spain Sweden United Kingdom and the United States this volume describes the evolution of child poverty and material well being during the crisis and links these outcomes with the responses by governments The analysis underlines that countries with fragmented social protection systems were less able to protect the incomes of households with children at the time when unemployment soared In contrast countries with more comprehensive social protection cushioned the impact of the crisis on households with children especially if they had implemented fiscal stimulus packages at the onset of the crisis Although the macroeconomic shock

itself and the starting positions differed greatly across countries while the responses by governments covered a very wide range of policy levers and varied with their circumstances cuts in social spending and tax increases often played a major role in the impact that the crisis had on the living standards of families and children *The Science and Politics of Work Disability Prevention* Ellen MacEachen, 2018-10-10 The rising cost of illness and disability benefits are one of today's biggest social and labour market challenges The promise of activation oriented work disability policies was labour market engagement for all people regardless of illness injury or impairment However the reality has been more complex The Science and Politics of Work Disability Policy addresses social and political economic contexts driving state work disability reform in 13 countries In this first attempt to explain the history and future of work disability policy this book asks new questions about work disability policy design focus and effects It details how work disability policies have evolved with jurisdictions why these take their current shape and where they are heading The well positioned authors draw on their insider knowledge and expertise in law medicine and social science to provide detailed case studies of their jurisdictions This pathbreaking volume will be of interest to social security system policy makers scholars and students in the health and social sciences

Geoinformatics and Atmospheric Science Tomasz Niedzielski, Krzysztof Migala, 2017-09-09 This volume presents recent developments in atmospheric sciences driven by numerical modeling which makes use of geospatial technologies and increasing computational power It gathers examples of how geoinformatics supports meteorological climatological and water related studies One of the most important features of geospatial technologies is that they provide methods and tools which may be utilized in real time or near real time in order to monitor and predict atmospheric processes This is particularly crucial in areas where dynamics of atmospheric phenomena is considerable and causes difficulties in accurate forecasting One of such areas is the transitional zone between oceanic and continental features of the mid latitude climate Good examples of investigations into the transitional zone come from Poland and its neighboring countries The topical volume provides the reader with a selection of papers on physically based and data based modelling of weather related phenomena over Poland This main theme of the topical volume is extended to cover case studies on the use of geoinformatics in atmospheric studies in other regions at a range of spatial scales **From Meaning of Working to Meaningful Lives: The**

Challenges of Expanding Decent Work Annamaria Di Fabio, David L. Blustein, 2016-09-21 This Research Topic explores issues that are central to the continued relevance of organizational and vocational psychology and equally central to the well being of individuals and communities The cohering theme of this publication revolves around the question of how people can establish meaningful lives and meaningful work experiences in light of the many challenges that are reducing access to decent work Another essential contextual factor that is explored in this volume is the Decent Work Agenda International Labour Organization 2008 which represents an initiative by the International Labour Organization In this book we hope to enrich the Decent Work Agenda by infusing the knowledge and perspectives of psychology into contemporary discourses

about work and well being Another inspiration for this project emerged from the UNESCO Chair in Lifelong guidance and counseling recently established in Poland in 2013 under the leadership of Jean Guichard which has focused on advancing research and policy advocacy about decent work This new era calls for an innovative perspective in constructing decent work and decent lives the passage from the paradigm of motivation to the paradigm of meaning where the sustainability of the decent life project is anchored to a meaningful construction During this period when work is changing so rapidly leaving people yearning for a sense of connection and meaning it s fundamental to create a framework for an explicitly psychological analysis of decent work

Crisis Era European Integration Jakša Puljiz, Hrvoje Butković, 2024-07-16 The year 2023 marked the tenth anniversary of Croatia s membership of the European Union the last acceding country to the EU and thus represents a fitting opportunity to explore the political economic and social dimensions of this tremendous transformation This book examines how Croatia has changed over the last ten years and looks at the driving forces as well as the obstacles on its post accession path of Europeanisation The book argues that the Croatian case has special importance given that the last decade of European integration has arguably been the most challenging one yet It started with the Eurozone wide sovereign debt crisis and ended with the economic hardship caused by the COVID 19 pandemic and Russia s aggression on Ukraine Such demanding circumstances where agenda was often defined in an ad hoc way posed a huge test for Croatia s governmental capacity The book provides answers to the question of how successful Croatian policymakers were in dealing with the crises related challenges and other needed adaptations The book explores how EU membership has affected the design and implementation of selected national public policies the functioning of governing institutions and patterns of cooperation between main social actors Expert contributors analyse the impact of the EU membership in two principal areas political and economic with individual chapters addressing relevant topics The book is intended for researchers academics and students interested in these issues as well as policymakers entrepreneurs and lobbyists concerned with European integration

[The Handbook of Social Work and Social Development in Africa](#) Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at

case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective **Employment Law in Context** David Cabrelli, 2016 A contextual rigorous treatment of employment law featuring a running case example to show exactly how the law works and including extracts from key cases and source materials

Local Economic and Employment Development (LEED) Weaving Together Policies for Social Inclusion in Ireland OECD, 2016-10-05 Ireland has made considerable progress in rebounding from the crisis but like other OECD countries continues to grapple with how to address lingering socio economic impacts Interpretive Sociology and the Semiotic Imagination Andrea Cossu, Jorge Fontdevila, 2024-03-12 Written by experts in interpretive sociology this volume examines semiotic models in a sociological context Contributors offer case studies to demonstrate how to do things with semiotics *Aging Welfare and Social Policy* Tian-kui Jing, Stein Kuhnle, Yi Pan, Sheying Chen, 2019-04-16 This perceptive volume presents conceptual theoretical and empirical approaches to social policy analysis comparing China and Nordic countries in their treatment of the elderly An international panel of experts offers valuable policy insights into issues of housing community care family care pensions and social security and mental health as China translates and adapts Western examples particularly those set by Norway Sweden and Finland The book contrasts shared issues in the contexts of economic history accountability and service improvements and sustainability while also examining specifically Chinese problems such as care gaps between urban and rural elders Coverage also considers the centrality of aging policy in China as the nation works toward its long term goal of eradicating poverty Included among the topics Building a welfare system with Chinese characteristics from a residual type to moderate universalism Aging in community historical and comparative study of aging welfare and social policy Sweden aging welfare and social policy in the 21st century Policy responses to aging care services for the elderly in Norway China's elderly care policy and its future trends *Aging Welfare and Social Policy* will interest professionals and researchers addressing questions of Chinese and comparative social policy health psychologists and sociologists focused on family youth and aging *The Social Challenges and Opportunities of Low Carbon Development* Johan Nordensvärd, 2016-10-04 This book explores the social implications and challenges of low carbon development The argument of the book is that a broad understanding of low carbon development is essential for mitigating climate change and enabling development in a carbon constrained world but there are risks that low carbon development might come at a price that is both social and economic These risks need to be carefully assessed and reduced The main aim of the book is to explore

critically analyse and propose different ways of understanding low carbon development from a social perspective in both developed and developing countries The author uses concepts such as low carbon development social policy sustainable development and environmental justice to understand the social implications of low carbon development projects The book first elaborates the need to understand the social issues and challenges of low carbon development in both developed and developing countries It then discusses five contemporary challenges of low carbon development the social consequences of Chinese hydropower dams in the Mekong region the cost of the transition to renewable energies such as wind energy in Germany the challenges of carbon offsetting in Brazil the nexus of fuel inefficient housing and fuel poverty in England solar power for refugees in Africa The book fills a crucial gap for researchers postgraduates practitioners and policy makers in the fields of climate change development and social policy Johan Nordensv rd is a Lecturer in Social Policy at the University of Southampton UK

Social Development and Social Work Perspectives on Social Protection Julie L. Drolet, 2016-04-28 Social protection is now considered a development milestone and an important tool in combating poverty Interventions can include for example health insurance public works programs guaranteed employment schemes or cash transfers targeting vulnerable populations groups This innovative volume is designed to develop understanding about the role and contribution of social protection globally and to share innovative practice and policies from around the world It explores how to cover an entire population effectively especially those who are at risk or who are already in a situation of deprivation and in a sustainable manner Divided into two parts the book begins by exploring the theoretical underpinnings of social protection discussing the social work and social development perspectives and concepts that currently shape it The second part is comprised of case studies from countries implementing successful social protection initiatives including Brazil India South Africa Ghana Nigeria and Indonesia and reveals how the impact of a successful social protection intervention on poverty vulnerability and inequality can be dramatic This volume is an important reference for advanced students and researchers from a range of disciplines including social policy social work development studies geography planning economics sociology population health and political science
