the story of three accidental visitors to an underwater world hosted by the mysterious Captain Nemo. From their arrival on board the Nautilus, the scholarly Professor Aronnax, loyal Conseil, and adventurous Ned Land are torn between exploring the new wonders of their surroundings and finding a way to escape. They originally encounter the Nautilus in the Pacific Ocean as part of an expedition to find out what species of undiscovered whale has been damaging world shipping. However, far from encountering a whale that has wrecked world shipping, they soon find themselves on the iron plating of a new kind of vessel: a submarine. From there, the three find themselves below decks with Aronnax, an honored guest of the vessel's commander, Captain Nemo. As the book progresses, the men hunt underwater, fight sharks, encounter Atlantis, and fight off giant squid. However, after sinking a warship belonging to a country that caused the death of his family, Nemo loses control on his sanity. He realizes that despite his best efforts to the contrary, he is just as uncivilized as those who oppressed him in the past. Like those oppressors, he relied on advanced technology to gain the upper hand. In short, Nemo finds out that he is as cruel as his opponents, causing him to go over a psychological cliff. Guiding the submarine into a whirlpool off the coast, the vessel and all aboard seem destined for doom until Aronnax, Conseil, and Ned Land sneak into a boat and escape the Nautilus.

Twenty Thousand Leagues Under the Sea Jules Verne, 2021-05-31 Professor Aronnax, his faithful servant Conseil, and the Canadian harpooner Ned Land begin an extremely hazardous voyage to rid the seas of a little-known and terrifying sea monster. However, the monster turns out to be a giant submarine commanded by the mysterious Captain Nemo, by whom they are soon held captive. So begins not only one of the great adventure classics by Jules Verne, the Father of Science Fiction, but also a truly fantastic voyage from the lost city of Atlantis to the South Pole.

**The Mighty Orinoco** Jules Verne, 2005-12-12 First English edition of a classic Verne adventure with a unique feminist twist. Jules Verne (1828-1905) was the first author to popularize the literary genre of science fiction. Written in 1898 and part of the author's famous series *Voyages Extraordinaires*, *The Mighty Orinoco* tells the story of a young man's search for his father along the then uncharted Orinoco River of Venezuela. The text contains all the ingredients of a classic Verne scientific adventure tale: exploration and discovery, humor and drama, dastardly villains and intrepid heroes, and a host of near-fatal encounters with crocodiles, jungle fever, Indians, and outlaws, all set in a wonderfully exotic locale. *The Mighty Orinoco* also includes a unique twist that will appeal to feminist readers: they will need to discover it for themselves. This Wesleyan edition features notes and a critical introduction by renowned Verne scholar Walter James Miller, as well as reproductions of the illustrations from the original French edition.
