20 Report On Bodies:

Neoliberal Rhetorics and Body Politics Tara Pauliny, 2015-12-17 *Neoliberal Rhetorics and Body Politics* Plastinate Exhibits as Infiltration uses transnational feminist rhetorical analyses to understand how the global force of neoliberalism infiltrates all parts of life from nation state relationships to individual subject formation Focusing on the hugely popular and profitable exhibits of preserved dissected and posed human bodies and body parts showcased in Body Worlds and BODIES The Exhibition plastinate shows offered by the German anatomist Gunther von Hagens and the US company Premier Exhibitions the book analyzes how these exhibits offer examples of neoliberalism's ideological reach as they also present a pop cultural lens through which to understand the scope of that reach By rhetorically analyzing the details of the exhibits themselves their political and cultural contexts their marketing literature and showcased artifacts and their connection to historical displays of bodies the book articulates how neoliberalism creates a grand narrative while simultaneously permeating daily living As such *Neoliberal Rhetorics and Body Politics* argues that these public for profit exhibitions offer familiar tangible and rich sites within which to understand neoliberalism's impact beyond the purview of public policy and economics Predicated on the idea that neoliberal practices are not uniform the book not only articulates how neoliberal discourses are embedded in these shows but it also traces the ideological and material consequences of that inculcation It focuses its analysis on the shows rhetorical deployment of necropolitics biopolitics intimacy and affect and details how the exhibits communicate neoliberalism's guiding principles of self reliance individual choice and freedom through market participation In doing so it answers a number of challenges posed by feminist transnational rhetorical studies namely that scholars extend their analyses to understand how information circulates that we pay more attention to the affective aspects of transnational rhetorics and that we recognize how pedagogy functions outside the classroom In attending to these concerns the book ultimately illustrates not only neoliberalism's strong rhetorical force but also reveals its deep cultural infiltration Cytological Studies on Virus Diseases of Solanaceous Plants Ismé Aldyth Hoggan, 1927 **Quarterly**

Superintendent of Documents, 1896 Economic and Social Rights and the Maintenance of International Peace and Security Claire Breen, 2017-06-14 This text comprises cutting edge research on one of the greatest global challenges the failure to address systematic economic and social exclusion and attendant violations of economic and social rights ESR as a driver of conflict The text explores what the UN's obligation to maintain international peace and security can mean when it is informed by the requirement to protect and promote ESR rights that play a crucial role in maintaining international peace and security but which are often overlooked The book considers the extent to which Security Council mandated peace operations have been informed by human rights and efforts to promote economic and social development

The approach is to analyse the extent to which the Security Council has interacted with the General Assembly the Economic and Social Council as well as other Charter based mechanisms such as the Human Rights Council and its predecessor with particular reference to the role of the Special Procedure Mechanisms The role of the UN High Commissioner for Human Rights is also considered In this way the text shows that the connection between peace and security and human rights is well recognised by these organs In addition the text considers States ESR obligations stemming from the extraterritorial application of such rights in the context of peace operations Given that States obligations stemming from ESR have often been neglected the book examines how such provision could be improved using ESR grounded plans reflecting the rights to health food water education work and life The text concludes with a call to reimagine what international peace and security can look like when it is informed by the need to recognise the emergence of post conflict legal obligations based on broader concepts of international peace and security that draw from ESR This text will appeal to legal scholars policy advisors members of the military those working in the area of development NGOs and final year undergraduate and or postgraduate students working in the areas of international law political science and international relations and associated fields of research
