The Monthly Army List Great Britain. Army, 1915 The Chinese Academy of Social Sciences (CASS) Margaret Sleeboom-Faulkner, 2007-01-30 This socio political analysis of the Chinese Academy of Social Sciences CASS sheds new light on the link between China's educational reforms and the ideological control exerted by the Party state It explores the dynamics of the ways in which the academic community has carved out and utilised the spaces between the academic and Party leadership and the free will of the individual By differentiating between various forms of power the author shows how knowledge produced at CASS is influenced not only as a direct result of top down decisions making but also unintentionally through organizational networks that interlock both leaders and led in the institutions they helped shape Administrative tools and symbolic representation in official ceremony are shown to be indispensable for an adequate understanding of the generation of knowledge at CASS With financial support of the International Institute for Asian Studies www.ias.nl

The Passionate Economist Sally Sheard, 2014 Brian Abel Smith was one of the most influential figures in the shaping of social welfare in the twentieth century A modern day Thomas Paine the British economist and expert advisor was driven to improve the lives of the poor working with groups like the World Health Organization International Labour Organization and the World Bank to help bring health and social welfare services to millions across the globe The Passionate Economist is the first biography to chronicle his life and the many programs he helped create Sally Sheard details Abel Smith's work as an economist and advocate setting it against the backdrop of the larger history of health and social welfare development since the 1950s She analyzes these developments and the effects that long running welfare debates have had on both poverty and state responses to it She compares welfare implementation in different developing countries and examines how it was administered by the agencies for which Abel Smith worked The result is an accessible book on a leading humanitarian and through him a history of exactly how we have cared for each other in the globalized era **Chinese Warfighting: The PLA**

Cassidy, 2006-04-30 Since September 2001 the United States has waged what the government initially called the global war on terrorism GWOT Beginning in late 2005 and early 2006 the term Long War began to appear in U.S. security documents such as the National Security Council's National Strategy for Victory in Iraq and in statements by the U.S. Secretary of Defense and the Chairman of the JCS The description Long War unlimited in time and space and continuing for decades is

closer to reality and more useful than GWOT Colonel Robert Cassidy argues that this protracted struggle is more correctly viewed as a global insurgency and counterinsurgency Al Qaeda and its affiliates he maintains comprise a novel and evolving form of networked insurgents who operate globally harnessing the advantages of globalization and the information age They employ terrorism as a tactic subsuming terror within their overarching aim of undermining the Western dominated system of states Placing the war against al Qaeda and its allied groups and organizations in the context of a global insurgency has vital implications for doctrine interagency coordination and military cultural change all reviewed in this important work Cassidy combines the foremost maxims of the most prominent Western philosopher of war and the most renowned Eastern philosopher of war to arrive at a threefold theme know the enemy know yourself and know what kind of war you are embarking upon To help readers arrive at that understanding he first offers a distilled analysis of al Qaeda and its associated networks with a particular focus on ideology and culture In subsequent chapters he elucidates the challenges big powers face when they prosecute counterinsurgencies using historical examples from Russian American British and French counterinsurgent wars before 2001 The book concludes with recommendations for the integration and command and control of indigenous forces and other agencies

Wars of Latin America, 1982-2013 René De La Pedraja,2013-10-04 This book continuing the narrative begun by the author in two preceding volumes provides a clear description of military combat occurring in Latin America for the years from 1982 into mid 2013 Although the text concentrates on combat operations matters of politics business and international relations appear as necessary to understand the wars The author has uncovered many previously unknown sources to provide new information never published before The book traces the many insurgencies in Latin America as well as conventional wars Among the highlights are the chapters on the Falklands War and the U S invasions of Grenada and Panama One useful aspect of the text is an explanation of why of the many insurgencies appearing in Latin America only those in Cuba and Nicaragua were successful in overthrowing governments The book also helps explain why even

unsuccessful insurgencies have survived for decades as has happened in Colombia and Peru Instructors considering this book for use in a course may request an examination copy here **Monthly Climatic Data for World by Continents** ,1962
