Understanding and Developing Student Engagement Colin Bryson, 2014-03-05 Enhancing the student experience and in particular student engagement has become a primary focus of Higher Education. It is in particularly sharp focus as Higher Education moves forward into the uncertain world of high student fees and a developed Higher Education market. Student engagement is a hot topic in considering how to offer value and a better student experience. Moreover, it is receiving much attention all over the world and underpins so many other priorities such as retention, widening participation and improving student learning generally. Understanding and Developing Student Engagement draws from a range of contributors in a wide variety of roles in Higher Education and all contributors are actively involved in the Researching, Advancing and Inspiring Student Engagement RAISE Network. While utilising detailed case examples from UK universities, the authors also provide a critical review and distillation of the differing paradigms of Student Engagement in America, Australasia, South Africa and Europe, drawing upon key research studies and concepts from a variety of contexts. This book uncovers the multi-dimensional nature of student engagement, utilising case examples from both student and staff perspectives, and provides conceptual clarity and strong evidence about this rather elusive notion. It provides a firm foundation from which to discuss practices and policies that might best serve to foster engagement. *Policy and Education* Paul Adams, 2014-01-21 Written specifically for education studies students, this accessible text offers a clear introduction to education policy. It aims to help the reader understand what is meant by educational policy, how policy can be made, and the main discourses that have driven education. Capturing the essential aspects of educational policy over the last thirty years, the book provides an overview of political themes in education, demonstrating how education policy has progressed and the effect this and politics have had on schools. It then covers key themes such as performance, choice and professionalism to show how education policy is constructed and implemented, and how this has impacted on education in practice. Features include activities that can be undertaken individually or as a group to promote discussion, annotated further reading lists, chapter overviews and summaries. Written as part of the Foundations in Education Studies series, this timely textbook is essential reading for students coming to the study of education policy for the first time. *Development Education in Policy and Practice* Stephen McCloskey, 2014-04-09 Development education is a radical form of learning that addresses the structural causes of poverty and injustice in the global North and South. This volume debates development education practice and the policy environment in which it is delivered. It affirmatively points to the transformative power of education as a means toward social change. [A Moral Economy of Whiteness](#) Steve Garner, 2015-08-14 A Moral Economy of Whiteness presents a working model for understanding the main ways in which white UK people make race through talking about immigration in the twenty-first century. Based on extensive empirical interviews, Steve Garner establishes four overlapping frames through which white English people understand immigration. This comprises a narrative of unequal treatment where equality is a

dirty word because it is seen as an agenda for redistributing resources to undeserving ethnic minorities non integrating migrants and unproductive white people Political correctness is seen as the ideological glue binding this unfair system People are thus retreating from Britishness into a more exclusive Englishness Garner explores the context of these understandings the dominance of neoliberal market rationales in which the State deprioritises anti discrimination work He concludes that these frames only make sense in a social world where Britain s imperial past has no bearing on the present and where racism in popular and media culture becomes purely a story of individual deviancy This book generates numerous international points of comparison that deepen our understanding of the backlash against multiculturalism in the West It will appeal to scholars and students of sociology social policy anthropology political science im migration multiculturalism nationalism and British studies

Transnational Social Policy Luann Good Gingrich, Stefan Köngeter, 2017-04-28 Transnational Social Policy highlights the changing face of social policy and social work against the background of accelerating transnationalization of economies labour markets education social services and care The contributions of this book provide unique case examples on the interplay of social policies mobile populations and travelling knowledge about welfare within an increasingly asymmetrical global context This innovative volume also includes historical studies on the transformations of social policies during the last century and reflects the developments of social welfare across the Global North and the Global South With its emphasis on theoretical assumptions of policy translation the case studies show the importance of adjustments negotiations and participation of various actors in the transnational social field of welfare production Thus within ever shifting contexts of new political agendas promoting the free play of the market and a neoliberal agenda of competition and austerity this insightful book reveals new transnational forms of social exclusion that function within across and in between nation states Presenting a major and much needed addition to current discussions on globalization and the increasing complexity of worldwide social relations this volume will be of interest to scholars and graduate students interested in fields such as Social Policy Social Work Public Administration Development Studies Political Science and Sociology as well as many interdisciplinary fields including Global Studies International Development Studies and Immigration and Settlement Studies

When Stereotype Meets Prejudice Timofey Agarin, 2014-09-01 Unsettling Whiteness Lucy Michael, Samantha Schulz, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Unsettling Whiteness brings together an international collection that considers anew the politics practices and representations of whiteness at a time when nations worldwide continue to grapple with issues that are underwritten by whiteness

Universities in the Flux of Time Paul Gibbs, Oili-Helena Ylijoki, Carolina Guzmán-Valenzuela, Ronald Barnett, 2014-11-27 Higher education and the institution of the university exist in time their essential nature now continually subject to change change in students in knowledge in structure and in their own communities and those they service These changes are accompanied by a quickening of time leading to a heightened intensity of academic life Yet the nature of time in all the contemporary work on the university has been largely

overlooked This is an important omission and Universities in the Flux of Time has gathered leading academics whose contributions to the volume raise a debate as to the influence and use of time in the university They do this in an exploration of how these changes are perceived in higher education and how these affect its temporality from local national and global perspectives By dealing with the time within the university the book opens new spaces for the development of the university and civic society The book develops an interdisciplinary understanding of the temporal issues of engaging with the past present and future of higher education and its institutions through consideration of the increased speed demanded for the production of able students and innovative research to the accountability pressures from central governments and commerce Reflecting on these issues in the higher education sector Universities in the Flux of Time is split into three parts with each one addressing time and its multiple relationships with the university Past present and future Knowledge and time Living with time This volume will provide essential reading for those on higher education studies courses as well as a wider audience of managers practitioners policy makers academics and students and from many disciplinary perspectives including sociology organisation studies social psychology and the philosophy of education

Negotiating Religion François Guesnet, Cécile Laborde, Lois Lee, 2016-08-25 Negotiating religious diversity as well as negotiating different forms and degrees of commitment to religious belief and identity constitutes a major challenge for all societies Recent developments such as the de secularisation of the world the transformation and globalisation of religion and the attacks of September 11 have made religious claims and religious actors much more visible in the public sphere This volume provides multiple perspectives on the processes through which religious communities create or defend their place in a given society both in history and in our world today Offering a critical cross disciplinary investigation into processes of negotiating religion and religious diversity the contributors present new insights on the meaning and substance of negotiation itself This volume draws on diverse historical sociological geographic legal and political theoretical approaches to take a close look at the religious and political agents involved in such processes as well as the political social and cultural context in which they take place Its focus on the European experiences that have shaped not only the history of negotiating religion in this region but also around the world provides new perspectives for critical inquiries into the way in which contemporary societies engage with religion This study will be of interest to academics lawyers and scholars in law and religion sociology politics and religious history

Rethinking Learning in an Age of Digital Fluency Maggi Savin-Baden, 2015-03-05 This is a book that I am going to have to own and will work to find contexts in which to recommend It cuts obliquely through so many important domains of evidence and scholarship that it cannot but be a valuable stimulus Hamish Macleod University of Edinburgh Digital connectivity is a phenomenon of the 21st century and while many have debated its impact on society few have researched relationship between the changes taking place and the actual impact on learning Rethinking Learning in an Age of Digital Fluency examines what kind of impact an increasingly connected environment is having on learning and what kind of culture it is creating within learning settings Engagement with digital media and navigating through digital spaces with ease is something that many young people appear to do well although the tangible benefits of this are unclear This book therefore will present an overview of current research and practice in the area of digital tethering whilst examining how it could be used to harness new learning and engagement practices that are fit for the modern age Questions that the book also addresses include Is being digital tethered a new learning nexus Are social networking sites spaces for co production of knowledge and spaces of inclusive learning Are students who are digitally

tethered creating new learning maps and pedagogies Does digital tethering enable students to use digital media to create new learning spaces This fascinating and at times controversial text engages with numerous aspects of digital learning amongst undergraduate students including mobile learning individual and collaborative learning viral networking self publication and identity dissemination It will be of enormous interest to researchers and students in education and educational psychology

Teachers and Academic Partners in Urban Schools Lori Beckett, 2016-03-02 Showing how critical thinking and local democracy can be a spur to very real educational development within schools that are facing severe challenges this book provides us with one very valuable contemporary resource of hope Ian Menter Professor of Teacher Education University of Oxford UK Teachers and Academic Partners in Urban Schools identifies and addresses a major problem for practitioners teachers student teachers and teacher educators working in urban schools burdened by highly restrictive teaching methods and pressures to meet unrealistic benchmarks set by government In this book Lori Beckett investigates how to negotiate these tensions and challenges and offers an account of how to elevate practitioners professional voice on quality teaching along more democratic lines The book addresses key issues for teachers in urban schools such as fractures in teachers professional communities impacts of imposed marketizing policies and forced performative practices on schools the complexities of teaching and teachers concerns about practice as well as teaching practitioners perception of educational schools policy Both academic and teacher partners contribute to the work showcasing the ways they have engaged with each other in joint work and with local government Through this the book supports a professional and politicized dialogue about teaching and teacher education offering a meaningful account of how to fashion a form of educative schooling for students and families with complex needs Written by a dynamic and experienced author this book brings Beckett s experience to bear on a controversial and complex area addressing the general trend towards increased regulatory policy in education It is an essential read for anyone interested in a rich analysis of how practitioners can work to reassert their professional voice and regain control of schools and teacher education and will also appeal to those interested in the larger project of restoring school democracy

Caring is Sharing? Katherine Twamley, 2024-11-06 Caring is Sharing explores why and how mixed sex couples make decisions around parental leave at the transition to parenthood and how these decisions shape their work and family care practices during and after the leave period It does this through a longitudinal qualitative comparative analysis of mixed sex parent couples in England who do and do not share parental leave after the birth of their first child The study shows that men and women s visions and practices of family life are embedded in ideals of appropriate intimate relations and negotiated with real and imagined reactions from peers wider family and colleagues These negotiations are often deeply emotional and shape how parents navigate the wider institutional and structural context in the UK where parental leave policy family and work norms are highly gendered The book shows that practices of couple intimacy in the UK influence the imaginaries of new parents and the processes through which they

enact divisions of parental leave and ultimately of care. In so doing it highlights the intersections of intimacy and equality contributing to debate around the stalled gender revolution and what is needed if UK parental leave policy is to become an effective driver of change in gender relations and family life. Praise for *Caring is Sharing* Katherine Twamley's beautifully crafted book *Caring is Sharing* makes significant contributions to scholarly and public understandings of parents' relational negotiations and experiences of caring while sharing or not sharing parental leave time and the complexities of measuring policy effects. This book embodies Twamley's outstanding qualitative research skills. I was moved by her analysis of narratives of care and intimacy and impressed by her stellar parental leave policy recommendations. Andrea Doucet, Canada Research Chair in Gender Work and Care, Brock University, author of *Do Men Mother?* This is what excellent sociology looks like. Twamley presents us with an empirically grounded, robust analysis of a pressing social issue: the low take-up of shared parental leave and, in the process, does some deep conceptual work that really extends scholarship in the fields of family, gender, and intimacy. Rich, poignant, and beautifully readable, I cannot recommend this book highly enough. Dr Charlotte Faircloth, UCL Social Research Institute. A riveting good read using state-of-the-art scholarly research to offer timely messages about gender equality outcomes for heterosexual couples trying to combine infant care and paid employment and shared parental leave policies. A must-read for anyone with an interest in parenting, fairness, and making a more liveable world. Lynn Jamieson, University of Edinburgh. This book presents a rich analysis that explores parents' decisions about shared parental leave and how these decisions later affect their divisions of labour. Through detailed quotes and anecdotes, Dr Twamley reveals the promises and pitfalls of SPL, providing recommendations on how leave policies may better promote gender equality. Richard J. Petts, Ball State University.
