## **1x21 Advanced Learning Method Speed Learning Course:**

Accelerated Learning: Proven Scientific Advanced Techniques for Speed Reading (Focus, Information, Study, Technique, Advanced Learning, Student) Eugenec Weaver, Accelerated Learning is not a textbook it s a guidebook for your journeys in learning It will show you the most effective methods the pitfalls we must avoid and the habits we must cultivate This book is highly organized and addresses all phases of the learning process from creating a positive environment to the biological basis of memory to learning theories and more It borrows from multiple scientific disciplines to present comprehensive techniques to simply learn more faster What will you learn How to master accelerated learning quickly without wasting time The secrets of how successful people achieve goals How to make learning fun easy and fast How to focus on the enjoyable parts of the process Special strategies to help you stay focused and motivated The tips tricks and techniques to get you there quicker And much much more Even if you ve been conditioned to dread the amount of time you need to acquire new information following the guidelines in this book can bring out your inner child and his or her natural drive to learn Learn scientifically proven methods for how to effectively retain and recall knowledge whenever it s needed *Accelerated Learning - Advanced Technique for Fast Learning* Thomas Abreu,2015-02-18 Accelerated learning is an advanced learning approach that is used in many organizations today including learning institutions and corporate entities It is research based and includes a variety of media and techniques As opposed to the traditional laidback learning approaches where the student assumes a passive role and the trainer actively pushes knowledge his way accelerated learning is more flexible and open ensuring that every learner is totally involved It brings in energy and re humanizes the learning process making it more enjoyable and productive Accelerated learning methods vary greatly with respect to the structure of the organization the subject matter in question and the learners In the words of Jacques Barzun teaching is not application of a system but rather an exercise in perpetual discretion The main aim of a learning process is not the method used but rather the results that it gives Accelerated learning scores highly in this regard Hundreds of organizations all over the world have embraced accelerated learning and the number of those that are joining in is rising by day This is because people have discovered that accelerated learning uses proven techniques that enable them to design programs faster improve measurable learning and enhance the productivity and creativity of employees In order to be successful in accelerated learning you need both a skeptical approach and an open mind Healthy skepticism will enable you to rethink your assumptions to learning and at the same time enable you to maintain a balanced head even as you crunch the dazzling techniques and methods in the accelerated learning process Openness on the other hand will help you to appreciate that learning is a continual process and no one has seen it all New possibilities are always knocking at your door and it is up to you to respond with an open mind Openness will help you to appreciate that nothing is dormant but rather continually evolving At times you have to depart from your organizational culture and the way you do things so that you can experience the joy that comes with new approaches Therefore having skepticism and openness

will help you in distinguishing between the real and the artificial in the learning environment This will in turn open up better ways of optimizing learning and enjoying even greater success in your tasks The high metabolism culture that we live in requires that we update our learning approaches so as to meet the demands and challenges of life The kinds of updates that we need to make are more of systemic rather than cosmetic We need to move from the mechanistic way of thinking that the conventional learning methods have taught us all through right from the early days of industrial economy In the learning environment today standardization one size fits all and behavioral conditioning are principles that no longer produce the desired results These principles were only effective in preparing people for repetitive and dreary tasks The kind of learning that will produce tangible results is to focus on creating knowledgeable workers and students who have the ability to absorb and adjust to new information Accelerated learning ignites people's minds and enhances their psychological powers for thinking innovating problem solving and learning As you go through the chapters of this book you will appreciate gradually that all of us are in a learning era which is characterized by genuine collaboration total learning involvement diversity and variety in learning methods and internal motivation The survival and health of organizations and individuals today depends on their ability to learn

*Accelerated Learning: Best Accelerated Learning Tips to Improve Memory and Speed Reading (Advanced Learning Strategies to Learn Faster, Remember More and Be More Productive)* Quinton Fann, While there are already solid educational psychology laws that govern and explain the process of learning in humans there are researchers who still want to push on into the realms of hyper learning Traditional methods of teaching and learning are effective up to this day However the advancements in society and technology deem it necessary that the new generation of learners keep up There are many approaches to speed up the learning process This will depend upon the background of the one who is aiming towards it Here is a preview of what you will learn The History and Development of Accelerated Learning The Four Components of the Accelerated Learning Cycle Technology and Accelerated Learning Understanding the Importance of Game Based Learning Accelerated Learning by Questioning Principles of Rapid Instructional Design in Accelerated Learning And much much more Through accelerated learning you will learn to enjoy studying finding expression in obtaining new skills and knowledge and being able to apply them in everyday life to advance your enjoyment and your career and help others improve their understanding and knowledge base
