24 7 Subjugation A Story Of Female Domination:

Subjugation: 2 Paths of Dominance and Surrender W D Jenkins, Isabelle spent her life believing control was her greatest strength until the man she married proved her wrong For years Alexander has watched his wife carry the weight of their marriage pushing resisting convinced that surrender is weakness But he sees the truth she doesn't need to fight anymore She needs to let go And he is ready to take her there whether she realizes it or not As Isabelle embarks on an uncharted path of submission another story unfolds in the shadows Victoria her fiercely independent best friend has built a life where she always wins at work in her marriage in bed But when her husband James stops playing by her rules everything shifts The dynamic she thought she controlled begins to unravel forcing her to confront a truth she never dared admit she doesn't want to be in charge Two women Two men who refuse to yield Two paths to submission one slow and coaxing the other relentless and unforgiving When power is redefined when resistance crumbles when surrender is the only way forward who will they become Subjugation is a dark psychological exploration of dominance and surrender passion and power obedience and ownership For readers who crave intensity depth and the slow inevitable breaking of the will **Women and New Reproductive Technologies** Judith Rodin,Aila Collins,2013-01-11 Although major breakthroughs in reproductive technology have created dramatic opportunities for many people they are not without problems More significant than the question of whether the technologies are good or bad however is for whom they are good in what instances and to whom they should be made accessible These issues can be debated at multiple levels from the ethical implications to the social and psychological consequences for society and for the individual to the legal and medical outcomes Each chapter highlights a different array of problems and benefits while emphasizing four major themes the impact of technology on women's lives the role of women the individual versus society and the fetus as patient Reading Marginally Rutledge,2021-09-06 This volume provides an introduction to the deconstructive criticism of Jacques Derrida discussing its relevance to feminism in general and to feminist interpretation of the Bible in particular The first part of the book provides a critical overview of current trends in feminist exegesis and proceeds with an outline of some key strategies in Derridean theory which could prove useful for feminist critical purposes The theological implications of deconstructive biblical interpretation are considered and the book's final chapter offers a reading of Genesis 2 4b 3 24 in which some of these reading strategies are put to work This study addresses a wide range of current issues in theology and biblical criticism and offers a valuable perspective on the advent of postmodernism in contemporary religion **The Unknown History of Jewish Women Through the Ages** Rachel Elior,2023-05-22 The Unknown History of Jewish Women On Learning and Illiteracy On Slavery and Liberty is a comprehensive study on the history of Jewish women which discusses their absence from the Jewish Hebrew library of the People of the Book and interprets their social condition in relation to their imposed ignorance and exclusion from public literacy The book begins with a chapter on communal education for Jewish boys which was compulsory and free of charge for

the first ten years in all traditional Jewish communities The discussion continues with the striking absence of any communal Jewish education for girls until the late nineteenth and early twentieth century and the implications of this fact for twentieth century immigration to Israel 1949 1959 The following chapters discuss the social cultural and legal contexts of this reality of female illiteracy in the Jewish community a community that placed a supreme value on male education The discussion focuses on the patriarchal order and the postulations rules norms sanctions and mythologies that in antiquity and the Middle Ages laid the religious foundations of this discriminatory reality

Uncovering Violence Amy Cottrill, 2021-10-26 It is no surprise that the Bible is filled with stories of violence having come into being through the crucible of trauma cultural conflict and warfare But the more obvious acts of physical or sexual violence in the Hebrew Bible often overshadow its subtler forms throughout Scripture and belie the variety of perspectives on violence embedded in biblical narratives This hinders readers ability to recognize the full spectrum of human engagement with violence both in texts and in their lived experiences

Uncovering Violence Reading Biblical Narratives as an Ethical Project seeks to provide a theoretical vocabulary for the various forms that violence can take including textual violence interpretive violence moral injury and slow violence and to offer a fresh ethical reading of violence in the biblical text Focusing on four narratives from the Hebrew Bible Cottrill uses the approach of narrative ethics to lay out the many ways that stories can make moral claims on readers not by delivering a discrete lesson or takeaway but by making transformative contact with readers and involving them in a more embodied dialogue with the text Exploring the narratives of Jael s killing of Sisera the toxic masculinity of Samson environmental devastation and failures of legal systems in Ruth and Abigail s mediation with King David **Uncovering Violence** presents strategies for reading that allow for this close encounter In doing so it helps prepare readers to better recognize interpret and even respond to violence and its many effects within and beyond the text

Conflicted Jurgen von Stuka, 2021-01-01 Thousands of men disappear every day They walk out of their office or their home and vaporize into thin air Some end up in the morgue or worse they end up in the hands of female slavers who will turn them into personal sex bondage or sissy slaves The men in this tale are taken by slavers using the most worn and tried gimmick on the planet they got involved with a gorgeous woman and easily fell into her trap Warning If the idea of living a totally changed life of a heterosexual male converted to a fully equipped female slave bothers you don t even think about reading this story It will not

make you feel good But as the story goes there are things that we know exist in this world that no one wants to talk about This is one of them Telling Border Life Stories Donna M Kabalen de Bichara,2013-05-21 Voices from the borderlands push against boundaries in more ways than one as Donna M Kabalen de Bichara ably demonstrates in this investigation into the twentieth century autobiographical writing of four women of Mexican origin who lived in the American Southwest Until recently little attention has been paid to the writing of the women included in this study As Kabalen de Bichara notes it is precisely such historical exclusion of texts written by Mexican American women that gives particular significance to the reexamination of the five autobiographical works that provide the focus for this in depth study *Early Life and Education and Dew on the Thorn* by Jovita Gonz lez 1904 83 deal with life experiences in Texas and were likely written between 1926 and the 1940s both texts were published in 1997 *Romance of a Little Village Girl* first published in 1955 focuses on life in New Mexico and was written by Cleofas Jaramillo 1878 1956 when the author was in her seventies *A Beautiful Cruel Country* by Eva Antonio Wilbur Cruce 1904 98 introduces the reader to history and a way of life that developed in the cultural space of Arizona Created over a ten year period this text was published in 1987 just eleven years before the author s death *Hoyt Street* by Mary Helen Ponce b 1938 began as a research paper during the period of the autobiographer s undergraduate studies 1974 80 and was published in its present form in 1993 These border autobiographies can be understood as attempts on the part of the Mexican American female autobiographers to put themselves into the text and thus write their experiences into existence *Readers' Guide to Periodical Literature* ,1926 No Condemnation! Gary E. Gilthvedt,2013-03-12 This book is a study of eight biblical texts to which many of us refer when conversing about homosexuality They are the only texts in the Bible generally thought to speak in an explicit way to this subject And yet the texts are frequently relied on for support of ideas and opinions that do not occur in the texts themselves Popular discussions easily overlay these texts with the current understanding and opinions to which we hold perhaps by which we are enthralled in our own time and place The lives questions convictions and experiences of the ancient peoples represented by the texts do not always get a fair hearing This book seeks to join the conversation about the Bible and homosexuality and serve as a resource for partners in that conversation Feminist Collections ,1991 *Mind the Gap* Peter Kappeler,Joan Silk,2009-11-09 This volume features a collection of essays by primatologists anthropologists biologists and psychologists who offer some answers to the question of what makes us human i e what is the nature and width of the gap that separates us from other primates The chapters of this volume summarize the latest research on core aspects of behavioral and cognitive traits that make humans such unusual animals All contributors adopt an explicitly comparative approach which is based on the premise that comparative studies of our closest biological relatives the nonhuman primates provide the logical foundation for identifying human univ sals as well as evidence for evolutionary continuity in our social behavior Each of the chapters in this volume provides comparative analyses of relevant data from primates and humans or pairs of chapters examine the same topic from a human or

primatological perspective respectively Together they cover six broad topics that are relevant to identifying potential human behavioral universals Family and social organization Predation pressure is thought to be the main force favoring group living in primates but there is great diversity in the size and structure of social groups across the primate order Research on the behavioral ecology of primates and other animals has revealed that the distribution of males and females in space and time can be explained by sex specific adaptations that are sensitive to factors that limit their fitness access to resources for females and access to potential mates for males

What's Right with the Trinity? Hannah Bacon, 2016-02-11 The doctrine of the Trinity poses a series of problems for feminist theology At a basic level the androcentric nature of trinitarian language serves to promote the male as more fully in the image of God and as the archetype of humanity pushing women to the margins of personhood It is no surprise then that feminist scholarship on this doctrine has often focused on what's wrong with the Trinity setting out the problems raised by the use of traditional androcentric trinitarian language This book brings together a discussion of feminist theological methodology with a critical exploration of the doctrine of the Trinity Focussing on what's right with the Trinity as opposed to what's wrong with the Trinity it considers the usefulness of this doctrine for feminist theology today It replaces a stress on trinitarian language with an emphasis on trinitarian thought exploring how we might effectively think rather than speak God in light of feminist concerns In particular it asks how a trinitarian understanding of God might support and be supported by key values which underpin a feminist way of doing theology specifically values which underpin the methodological use of women's experience in feminist theology The central argument is that thinking God as Trinity need not serve to reinforce patriarchal values and ideals but may in fact promote the subjectivity and personhood of women

Romans Hope of the Nations Practical Christianity Foundation, 2020-08-08 Hope of the nations The book of Romans is a masterpiece of Christian doctrine through which the apostle Paul explores many fundamentals of the Christian faith In this letter Paul the servant of Jesus Christ affirms the reality of humanity's fallen condition and God's divine provision for redemption Through this letter originally addressed to the believers in ancient Rome we today can peer into the clouded mirror of divine grace and glimpse the plan of redemption as sovereignly designed by the Master Potter through the life death and resurrection of His Son our Lord Jesus Christ

Subjects of Slavery, Agents of Change Kari J. Winter,2010-07-01 In *Subjects of Slavery Agents of Change* Kari J Winter compares the ways in which two marginalized genres of women s writing female Gothic novels and slave narratives represent the oppression of women and their resistance to oppression Analyzing the historical contexts in which Gothic novels and slave narratives were written Winter shows that both types of writing expose the sexual politics at the heart of patriarchal culture and both represent the terrifying aspects of life for women Female Gothic novelists such as Emily and Charlotte Bronte Ann Radcliffe and Mary Shelley uncover the terror of the familiar the routine brutality and injustice of the patriarchal family and of conventional religion as well as the intersecting oppressions of gender and class They represent the world as in Mary Wollstonecraft s words a vast prison in which women are born slaves Writing during the same period Harriet Jacobs Nancy Prince and other former slaves in the United States expose the all pervading corruption of southern slavery Their narratives combine strident attacks on the patriarchal order with criticism of white women s own racism and classism These texts challenge white women to repudiate their complicity in a racist culture and to join their black sisters in

a war against the peculiar institution Winter explores as well the ways that Gothic heroines and slave women resisted subjugation Moments of escape from the horrors of patriarchal domination provide the protagonists with essential periods of respite from pain Because this escape is never more than temporary however both types of narrative conclude tensely The novelists refuse to affirm either hope or despair thereby calling into question conventional endings of marriage or death And although slave narratives were typically framed by white authored texts containment of the black voice did not diminish the inherent revolutionary conclusion of antislavery writing According to Winter both Gothic novels and slave narratives suggest that although women are victims and mediators of the dominant order they also can become agents of historical change
