

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Steele,1974-09-12 The story of the British political system s reaction to the Irish unrest is told and an important episode in Mr Gladstone s career fully revealed The agrarian reform of 1870 was not only the beginning of the undoing of the conquest it was also a point of departure for British legislation generally A great deal of evidence is marshalled in the book to support its argument that the Act undermined the conception of property rights which was central to the self confidence of the rulers of mid Victorian Britain Dr Steele draws on the relatively neglected mass of evidence about the Irish peasantry their customs and aspirations collected and printed by British Parliamentary and official investigations during the nineteenth century He has been able to exploit a wealth of material in the private papers of Mr Gladstone his cabinet colleagues and other leading political figures Selective use has been made of the British and Irish press to illustrate and emphasize all that was at stake

Race, Ethnicity, and Language Data Institute of Medicine,Board on Health Care Services,Subcommittee on Standardized Collection of Race/Ethnicity Data for Healthcare Quality Improvement,2009-12-30 The goal of eliminating disparities in health care in the United States remains elusive Even as quality improves on specific measures disparities often persist Addressing these disparities must begin with the fundamental step of bringing the nature of the disparities and the groups at risk for those disparities to light by collecting health care quality information stratified by race ethnicity and language data Then attention can be focused on where interventions might be best applied and on planning and evaluating those efforts to inform the development of policy and the application of resources A lack of standardization of categories for race ethnicity and language data has been suggested as one obstacle to achieving more widespread collection and utilization of these data Race Ethnicity and Language Data identifies current models for collecting and coding race ethnicity and language data reviews challenges involved in obtaining these data and makes recommendations for a nationally standardized approach for use in health care quality improvement
