BLUE BOOK MOTOR HOME GUIDE ,2005 **Skiing** ,2002-11 South with the Sun Lynne Cox,2011-09-13 Lynne Cox
adventurer swimmer and bestselling author gives us a full scale account of the life and expeditions of Roald Amundsen the
last of the Vikings who left his mark on the Heroic Era as one of the most successful polar explorers ever A powerfully built
man more than six feet tall Amundsen s career of adventure began at the age of fifteen he was born in Norway in 1872 to a
family of merchant sea captains and rich ship owners twenty five years later he was the first man to reach both the North and
South Poles We see Amundsen in 1903 06 the first to travel the Northwest Passage between the Atlantic and Pacific Oceans
in his small ship Gj a a seventy foot refitted former herring boat powered by sails and a thirteen horsepower engine making
his way through the entire length of the treacherous ice bound route between the northern Canadian mainland and Canada s
Arctic islands from Greenland across Baffin Bay between the Canadian islands across the top of Alaska into the Bering Strait
The dangerous journey took three years to complete as Amundsen his crew and six sled dogs waited while the frozen sea
around them thawed sufficiently to allow for navigation We see him journey toward the North Pole in Fridtjof Nansen s
famous Fram until word reached his expedition party of Robert Peary s successful arrival at the North Pole Amundsen then
set out on a secret expedition to the Antarctic and we follow him through his heroic capture of the South Pole Cox makes
clear why Amundsen succeeded in his quests where other adventurer explorers failed and how his methodical preparation
and willingness to take calculated risks revealed both the spirit of the man and the way to complete one triumphant journey
after another Crucial to Amundsen s success in reaching the South Pole was his use of carefully selected sled dogs Amundsen
s canine crew members he called them our children had been superbly equipped by centuries of natural selection for survival
in the Arctic The dogs he wrote are the most important thing for us The whole outcome of the expedition depends on them
On December 14 1911 Roald Amundsen and four others 102 days and more than 1 880 miles later stood at the South Pole a
full month before Robert Scott Lynne Cox describes reading about Amundsen as a young girl and how because of his exploits
was inspired to follow her dreams We see how she unwittingly set out in Amundsen s path swimming in open waters off
Antarctica then Greenland always without a wetsuit first as a challenge to her own abilities and then later as a way to
understand Amundsen s life and the lessons learned from his vision imagination and daring South with the Sun inspiring
