A Jesus-Shaped Life Bible Study Guide plus Streaming Video Lisa Harper, 2025-07-08 Moving beyond facts to experience the fullness of God Theology is a conversation about God One that invites us to experience God in all His fullness rather than just memorizing facts about God Theology is not some academic subject to only be pursued by professors and seminarians Theology is the way we connect with our Redeemer It s how we remember that we re His And we will never have to be alone This seven week Bible study by Lisa Harper titled A Jesus Shaped Life is your invitation to explore the depths of God s character God s love for you and how your relationship with Him transforms you Ultimately you will experience how biblically sound theology deepens your relationship with God and each other This study guide includes In depth personal Bible study between sessions Individual access to seven streaming video teachings from Lisa Group discussion questions Streaming video access code included Access code subject to expiration after 12 31 2030 Code may be redeemed only by the recipient of this package Code may not be transferred or sold separately from this package Internet connection required Void where prohibited taxed or restricted by law Additional offer details inside *The Justification of War and International Order* Lothar Brock, Hendrik Simon, 2021-02-11 The history of war is also a history of its justification The contributions to this book argue that the justification of war rarely happens as empty propaganda While it is directed at mobilizing support and reducing resistance it is not purely instrumental Rather the justification of force is part of an incessant struggle over what is to count as justifiable behaviour in a given historical constellation of power interests and norms This way the justification of specific wars interacts with international order as a normative frame of reference for dealing with conflict The justification of war shapes this order and is being shaped by it As the justification of specific wars entails a critique of war in general the use of force in international relations has always been accompanied by political and scholarly discourses on its appropriateness In much of the pertinent literature the dominating focus is on theoretical or conceptual debates as a mirror of how international normative orders evolve In contrast the focus of the present volume is on theory and political practice as sources for the re and de construction of the way in which the justification of war and international order interact With contributions from international law history and international relations and from Western and non Western perspectives this book offers a unique collection of papers exploring the continuities and changes in war discourses as they respond to and shape normative orders from early modern times to the present *In the Shadow of Policy* Paul Hebinck, Ben Cousins, Henning de Klerk, Jonathan Denison, Ntombekhaya Faku, Derick Fay, Klara Jacobson, Petunia Khutswane, Rosalie Kingwill, Karin Kleinbooi, Zamilé Madyibi, Francois Marais, Modise Moseki, Malebogo Phetlhu, Robert Ross, Dik Roth, Limpho Taoana, Harriët Tienstra, Wim van Averbeké, Yves van Leynseele, 2013-10-01 Notions of land and agrarian reform are now well entrenched in post apartheid South Africa But what this reform actually means for everyday life is not clearly understood nor the way it will impact on the political economy In the Shadow of Policy explores the interface between the policy of land and

agrarian reform and its implementation and between the decisions of policy experts and actual livelihood experiences in the fields and homesteads of land reform projects Starting with an overview of the socio historical context in which land and agrarian reform policy has evolved in South Africa the volume presents empirical case studies of land reform projects in the Northern Western and Eastern Cape provinces These draw on multiple voices from various sectors and provide a rich source of material and critical reflections to inform future policy and research agendas In the Shadow of Policy will be a key reference tool for those working in the area of development studies and land policy and for civil society groups and NGOs involved in land restitution

Making Sense of Cyber Capabilities for Small States Francis C. Domingo, 2022-03-28 Domingo explores the potential of cyber capabilities for small states in the Asia Pacific the most active region for cyber conflict He develops a systematic explanation for why Brunei New Zealand and Singapore have developed or are developing cyber capabilities Studies on cyber conflict and strategy have substantially increased in the past decade but most have focused on the cyber operations of powerful states This book moves away from the prominence of powerful states and explores the potential of cyber capabilities for small states in the Asia Pacific the most active region for cyber conflict It develops a systematic explanation of why Brunei New Zealand and Singapore have developed or are developing cyber capabilities despite its obscure strategic value The book argues that the distribution of power in the region and a technology oriented strategic culture are two necessary conditions that influence the development of cyber capabilities in small states Following this argument the book draws on neoclassical realism as a theoretical framework to account for the interaction between these two conditions The book also pursues three secondary objectives First it aims to determine the constraints and incentives that affect the utilization of cyber capabilities as foreign policy instruments Second the book evaluates the functionality of these cyber capabilities for small states Lastly it assesses the implications of employing cyber capabilities as foreign policy tools of small states This book will be an invaluable resource for academics and security analysts working on cyber conflict military strategy small states and International Relations in general

No Shortcuts Max Smeets, 2022-06-02 Over the past decade numerous states have declared cyberspace as a new domain of warfare sought to develop a military cyber strategy and establish a cyber command These developments have led to much policy talk and concern about the future of warfare as well as the digital vulnerability of society No Shortcuts provides a level headed view of where we are in the militarization of cyberspace In this book Max Smeets bridges the divide between technology and policy to assess the necessary building blocks for states to develop a military cyber capacity Smeets argues that for many states the barriers to entry into conflict in cyberspace are currently too high Accompanied by a wide range of empirical examples Smeets shows why governments abilities to develop military cyber capabilities might change over time and explains the limits of capability transfer by states and private actors

Global Innovations in Physical Education and Health Garcia, Manuel B., 2024-10-31 Addressing the worldwide crisis of inadequate physical education, PE programs require immediate attention. Despite the advocacy of international organizations like UNESCO and WHO, there still needs to be a significant gap in understanding the effectiveness of PE initiatives globally. Cultural, socio-economic and policy differences further complicate evaluating and improving these programs. More comprehensive research is needed to promote academic achievement, well-being and overall health. This is where *Global Innovations in Physical Education and Health* comes in, a groundbreaking solution poised to revolutionize PE on a global scale. This innovative book serves as a beacon of hope by exploring diverse teaching strategies and creative methods worldwide. Bridging critical research gaps, empowers policymakers, educators, researchers, administrators and health professionals with actionable insights to enhance the quality and inclusivity of PE programs. With its comprehensive coverage of topics such as adaptive PE, nutritional education and global health initiatives, this book provides a roadmap for transforming PE into a catalyst for holistic health and lifelong well-being.
